SUPPLEMENTARY INFORMATION:

Background

On August 18, 2011, TSA published the Air Cargo Screening final rule in a separate Part III of the **Federal Register** (76 FR 51848). The rule amended two provisions of the Air Cargo Screening IFR issued on September 16, 2009 (74 FR 47672), proposed a new fee range for security threat assessments, and responded to public comments on the IFR. The final rule contained the language “on airport” in §§ 1544.205(g)(3) and 1546.205(g)(3), Acceptance and Screening of cargo. This language may be interpreted to not allow an aircraft operator or a foreign air carrier to screen cargo off airport, thus requiring them to become a Certified Cargo Screening Facility (CCSF) to screen cargo off airport for transport on passenger aircraft. This document corrects the final regulations by removing the language “on airport,” clarifying that an aircraft operator or foreign air carrier does not have to become a CCSF to screen cargo off airport for transport on a passenger aircraft. The final rule also contained an incorrect citation in the last paragraph of the preamble section “II. Summary of the Final Rule” that read “156.105(c)” and should have read “1546.105(c)”. This document corrects the incorrect citation in the preamble.

2. On page 51867, in the third column, paragraph (g)(3) under § 1544.205 Acceptance and screening of cargo, is corrected to read as follows:
