

Environmental Response Compensation and Liability Act (42 U.S.C. 9620), as amended by the Superfund Amendments And Reauthorization Act of 1988, (100 Stat. 1670), notice is hereby given that the above described parcel has been examined and no evidence was found to indicate that any hazardous substances have been stored for one year or more, nor had any hazardous substances been disposed of or released on the subject property.

A limited reversionary provision would state that the title shall revert to the United States upon a finding that the patentee has not substantially developed the land in accordance with the approved plan of development within 5 years from the date of sale finding (after notice and opportunity for a hearing). No portion of the land conveyed will, under any circumstances, revert to the United States if such portion has been used for solid waste disposal or any other purpose that may result in the disposal, placement or release of any hazardous substance.

Upon publication of this notice in the **Federal Register**, the lands described above will be segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for conveyance under the R&PP Act. The segregative effect shall terminate upon issuance of a patent, upon final rejection of the application, or 18 months from the date of this notice, whichever occurs first.

Classification Comments: Interested parties may submit comments involving the suitability of the land for use as a POST Academy and PRSTF. Comments on the classification are restricted to whether the land is physically suitable for the proposed use, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with state and Federal programs.

Application Comments: Interested parties may submit comments regarding the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the decision, or any other factor not related to the suitability of the land for the proposed use. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.

Only written comments submitted by postal service or overnight mail to the BLM Grand Junction Field Office will be considered properly filed. E-mail, fax, or telephone comments will not be considered properly filed. Documents related to this action are on file in the BLM Grand Junction Field Office at the address above and may be reviewed by the public at their request.
