Patent and Trademark Office

[Docket No. PTO-P-2011-0032]

Establishing a One-Year Retention Period for Patent-Related Papers That Have Been Scanned Into the Image File Wrapper System or the Supplemental Complex Repository for Examiners

AGENCY: United States Patent and Trademark Office, Commerce.

ACTION: Request for Comments.

SUMMARY: The United States Patent and Trademark Office (USPTO) is considering establishing a retention period of one year for patent-related papers that have been scanned into the Image File Wrapper system (IFW) or the Supplemental Complex Repository for Examiners (SCORE). Specifically, the USPTO is considering establishing a one-year retention period that begins on September 1, 2011, for papers scanned into IFW or SCORE prior to September 1, 2011; or a paper's submission date, for papers scanned into IFW or SCORE on or after September 1, 2011. After the expiration of the one-year retention period (after September 1, 2012, or later), the USPTO would dispose of the paper unless, within sufficient time prior to disposal of the paper, the relevant patent applicant, patent owner, or reexamination party files a *bona fide* request to correct the electronic record of the paper in IFW or SCORE, and the request remains outstanding at the time disposal of the paper would have otherwise occurred. Establishing a one-year retention period for papers scanned into IFW or SCORE would replace the USPTO's past practice of indefinitely retaining the papers, which has been rendered unnecessary and cost-ineffective by improvements in scanning and indexing.

DATES: *Comment Deadline Date:* To be ensured of consideration, written comments must be received on or before October 28, 2011. No public hearing will be held.

ADDRESSES: Comments concerning this notice may be sent by electronic mail message over the Internet addressed to IFWPaperRetention@uspto.gov, or submitted by mail addressed to: Mail Stop Comments—Patents, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450. Although comments may be submitted by mail, the USPTO prefers to receive comments via the Internet.

The comments will be available for public inspection at the Office of the Commissioner for Patents, located in

Madison East, Tenth Floor, 600 Dulany Street, Alexandria, Virginia, and will be available via the USPTO Internet Web site (address: <http://www.uspto.gov>). Because comments will be available for public inspection, information that is not desired to be made public, such as an address or phone number, should not be included in the comments.

FOR FURTHER INFORMATION CONTACT: Raul Tamayo, Legal Advisor, Office of Patent Legal Administration, Office of the Associate Commissioner for Patent Examination Policy, by telephone at (571) 272-7728, or by mail addressed to: Mail Stop Comments-Patents, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450, marked to the attention of Raul Tamayo.

SUPPLEMENTARY INFORMATION: IFW is the USPTO's system for electronically storing and maintaining the files of patent applications and reexamination proceedings. The image files in IFW for patent applications and reexamination proceedings are the official records of those patent applications and reexamination proceedings. See *Changes to Implement Electronic Maintenance of Official Patent Application Records*, 68 FR 38611 (June 30, 2003), 1272 *Off. Gaz. Pat. Office* 197 (July 29, 2003). The USPTO stores in IFW documents it receives over the Electronic Filing System—Web (EFS-Web). In particular, the USPTO converts Portable Document Format (PDF) files submitted by users into Tagged Image File Format (TIFF) image files and then stores the TIFF image files in IFW as part of the official record for the relevant patent application or reexamination proceeding. The USPTO also stores in IFW as part of the official record of a patent application or reexamination proceeding the image files that it creates when it scans documents filed in paper, *i.e.*, filed by mail, at the USPTO's Customer Service Window, or, when permitted, facsimile. After being scanned into IFW, the papers are no longer part of the official record.

Since July 1, 2003, the USPTO has been scanning into IFW newly received patent applications filed in paper. See *Notification of United States Patent and Trademark Office Patent Application Records being Stored and Processed in Electronic Form*, 1271 *Off. Gaz. Pat. Office* 100 (June 17, 2003). In particular, the USPTO since July 1, 2003, has been scanning into IFW newly received, paper-filed (1) Nonprovisional applications under 35 U.S.C. 111(a), (2) provisional applications under 35 U.S.C. 111(b), (3) plant applications under 35 U.S.C. 161, (4) design
