SUPPLEMENTARY INFORMATION:

I. Background

The proposed information collection is for an evaluation of the implementation of the Green Jobs and Health Care training grants. This evaluation is sponsored by ETA to understand the processes surrounding the design and implementation of four specific grant programs.

In February 2009, President Obama signed the American Recovery and Reinvestment Act of 2009 (Recovery Act) into law in an effort to preserve and create jobs, promote economic growth, and assist those impacted by the recession. The Recovery Act included funding for four Solicitations for Grant Applications (SGAs) with the goal of training workers in the skills required to be employed in specific high-growth and emerging industries including health care, energy efficiency, and renewable energy. The four SGAs are:

- Energy Training Partnership (\$100 million allocated across 25 projects)
- Pathways Out of Poverty (\$150 million for 38 projects)
- State Energy Sector Partnership and Training (\$190 million for 34 projects)
- Health Care and Other High Growth Emerging Industries (\$225 million for 55 projects).

II. Review Focus

The Department is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

III. Current Actions

This proposed information collection will involve: (1) Collecting data from recipients of four DOL/ETA grants that provide funding to train unemployed, underemployed, dislocated, and incumbent workers for employment and to create career pathways in health care and other growing industries; (2) conducting on-site in-depth interviews with grantees and their program partner staff; (3) conducting focus groups with grant participants; and (4) administering a web/telephone survey of all grant project directors and selected program partner staff.
