Coast Guard

33 CFR Part 165

[Docket No. USCG-2011-0511]

RIN 1625-AA00

Safety Zone; Missouri River From the Border Between Montana and North Dakota

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule; change of effective period.

SUMMARY: The Coast Guard is extending the effective period for the temporary safety zone on the specified waters of the Missouri River from the Montana and North Dakota border to the confluence with the Mississippi River, extending the entire width of the river. Temporary section 33 CFR 165.T11-0511, which established the temporary safety zone, was set to expire August 30, 2011. Extending the effective period for this safety zone provides continued and uninterrupted protection of levees and personnel involved in ongoing high water response. Continuing the safety zone will significantly reduce the threat of destruction to levees and vessels and tows.

DATES: Section 165.T11-0511 temporarily added at 76 FR 37647, June 28, 2011, effective from June 2, 2011 to August 30, 2011, will continue in effect through October 31, 2011.

ADDRESSES: Documents indicated in this preamble as being available in the docket are part of docket USCG-2011-0511 and are available online by going to <http://www.regulations.gov>, inserting USCG-2011-0511 in the “Keyword” box, and then clicking “Search.” They are also available for inspection or copying at the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions about this notice, call or e-mail Lieutenant Commander (LCDR) Scott Stoermer, Sector Upper Mississippi River, Coast Guard at (314) 269-2540 or Scott.A.Stoermer@uscg.mil.

SUPPLEMENTARY INFORMATION:

Regulatory Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing an NPRM. This rule extends the existing temporary safety zone on the Missouri River from the border between Montana and North Dakota at 104.05 degrees west

longitude to the confluence with the Mississippi River at 90.11 degrees West longitude and extending the entire width of the river, which is currently set to expire on August 30, 2011. This extension is necessary to continue uninterrupted protection of levees and personnel involved in ongoing high water response.

Failing to extend the effective dates for this rule pending completion of notice and comment rulemaking is impracticable and contrary to the public interest because it would cause a gap in the ability to enforce the needed safety zone for protection of all responders, the response efforts, and the environment. For the same reasons, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**.

Basis and Purpose

The safety zone in place pursuant to the temporary final Rule at docket USCG-2011-0511 (76 FR 37647) established a safety zone for the record flooding on the Missouri River from June 2, 2011 through August 30, 2011. The safety zone was enforced through actual notice from June 2, 2011 until June 28, 2011, when the rule published in the **Federal Register** to ensure seamless protection of those involved in the response efforts. This rule extends the effective dates of the temporary safety zone on the Missouri River from the border between Montana and North Dakota at 104.05 degrees west longitude to the confluence with the Mississippi River at 90.11 degrees West longitude and extending the entire width of the river, which is currently set to expire on August 30, 2011. The temporary safety zone created by this rule ensures that there is no gap in authority to protect all responders, levees, and tow boats and tows.

Discussion of Rule

The Coast Guard is extending the effective date of a safety zone encompassing the entire Missouri River from the border between Montana and North Dakota at 104.05 degrees west longitude to the confluence with the Mississippi River at 90.11 degrees West longitude and extending the entire width of the river.

During enforcement periods, vessels and tows may not enter this zone unless authorized by the Captain of the Port Sector Upper Mississippi River. Emergency response boats or vessels may enter these waters when responding to emergent situations on or near the river. The Captain of the Port Sector Upper Mississippi River will
