Estimated Total Annual Cost to Public: $0 in capital and recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: August 24, 2011.

Gwelin Banks,
Management Analyst, Office of the Chief Information Officer.

Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to U.S. Navy Operations of Surveillance Towed Array Sensor System Low Frequency Active Sonar

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for letter of authorization; request for comments and information.

SUMMARY: NMFS has received a request from the U.S. Navy (Navy) for authorization to take, by harassment, marine mammals incidental to conducting operations of Surveillance Towed Array Sensor System (SURTASS) Low Frequency Active (LFA) sonar for the period beginning August 2012 and ending August 2017. Pursuant to the implementing regulations of the Marine Mammal Protection Act (MMPA), NMFS is announcing our receipt of the Navy’s request for regulations governing the incidental taking of marine mammals and inviting information, suggestions, and comments on the Navy’s application and request.

DATES: Comments and information must be received no later than September 29, 2011.

ADDRESSES: Comments on the application should be addressed to P. Michael Payne, Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910–3225. The mailbox address for providing e-mail comments is TIP.Cody@noaa.gov. NMFS is not responsible for e-mail comments sent to addresses other than the one provided here. Comments sent via e-mail including all attachments must not exceed a 10-megabyte file size.

Instructions: All comments received are a part of the public record and will generally be posted to http://www.nmfs.noaa.gov/pr/permits/incidental.html#applications without change. All Personal Identifying Information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Jeannine Cody, Office of Protected Resources, NMFS, (301) 427–8401.

SUPPLEMENTARY INFORMATION:

Availability

An electronic copy of the Navy’s application may be obtained by writing to the address specified above (See ADDRESSES), telephoning the contact listed above (see FOR FURTHER INFORMATION CONTACT), or visiting the internet at: http://www.nmfs.noaa.gov/pr/permits/incidental.html#applications. The Navy released a draft Supplemental Environmental Impact Statement (DSEIS) for the employment of SURTASS LFA sonar on August 19, 2011. A copy of the DSEIS, which would also support NMFS’ proposed rulemaking under the MMPA, is available at http://www.surtass-lfa-eis.com.

Background

Sections 101(a)(5)(A) and (D) of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 et seq.) direct the Secretary of Commerce (Secretary) to allow, upon request, the incidental, but not intentional taking of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) if certain findings are made and regulations are issued or, if the taking is limited to harassment, notice of a proposed authorization is provided to the public for review.

Authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant), and if the permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such taking are set forth.

NMFS has defined “negligible impact” in 50 CFR 216.103 as “* * * an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival.”

With respect to military readiness activities, the MMPA defines “harassment” as:

(i) any act that injures or has the significant potential to injure a marine mammal or marine mammal stock in the wild [Level A Harassment]; or (ii) any act that disturbs or is likely to disturb a marine mammal or marine mammal stock in the wild by causing disruption of natural behavioral patterns, including, but not limited to, migration, surfacing, nursing, breeding, feeding, or sheltering, to a point where such behavioral patterns are abandoned or significantly altered [Level B Harassment].

Summary of Request

On August 17, 2011, NMFS received an application from the Navy requesting authorization to take individuals of 94 species of marine mammals (70 cetaceans and 24 pinnipeds), by harassment, incidental to upcoming training, testing, and routine military operations (all categorized as military readiness activities) using SURTASS LFA sonar over the course of five years.

The Navy states that these training, testing, and routine military activities may expose some of the marine mammals present in the operational areas to sound from low-frequency active sonar sources. Because marine mammals may be harassed due to noise disturbance incidental to the use of SURTASS LFA sonar during training, testing, and routine military operations, the Navy requests authorization to take individuals of 94 species of marine mammals by Level B Harassment. Further, the Navy states that the probability of taking marine mammals by Level A Harassment is less than 0.001 percent. However, because the probability is not zero, the Navy has

ACTION: Proposed collection; comment request.

SUMMARY: The United States Patent and Trademark Office (USPTO), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on this new information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before October 31, 2011.

ADDRESSES: You may submit comments by any of the following methods:
- E-mail: InformationCollection@uspto.gov.
- Mail: Information Officer, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450.

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to the attention of Martha Sneed, Director, Public Search Services Division, Office of the Chief Information Officer, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1451, by telephone at 703–756–1236, or by e-mail to Martha.Sneed@uspto.gov.

SYNOPSIS:

The metrics will be submitted electronically to the USPTO. The USPTO is requiring the centers to provide metrics on the PTRC outreach services and use of the patent and trademark services.

Recognition as a PTRC is authorized under the provisions of 35 U.S.C. 2(a)(2), which provides that the USPTO shall be responsible for disseminating to the public information with respect to patents and trademarks. In order to be designated as a PTRC, libraries must fulfill the following requirements: assist the public in the efficient use of patent and trademark information resources; provide free access to patent and trademark resources provided by the USPTO; provide metrics on outreach efforts conducted by the member library as stipulated by the USPTO; and send representatives to attend the USPTO-hosted PTRC training seminars.

The USPTO has undertaken a revitalization of the Patent and Trademark Depository Library Program to reflect the new 21st Century electronic approach to customer services. As part of this revitalization, the name will change to Patent and Trademark Resource Center Program and the nationwide network of libraries will be known as Patent and Trademark Resource Centers (PTRCs). In addition to the required information collection, the USPTO will provide additional information about this collection is also available at http://www.reginfo.gov under “Information Collection Review.”

I. Abstract

The USPTO has undertaken a revitalization of the Patent and Trademark Depository Library Program to reflect the new 21st Century electronic approach to customer services. As part of this revitalization, the name will change to Patent and Trademark Resource Center Program and the nationwide network of libraries will be known as Patent and Trademark Resource Centers (PTRCs). In addition to the required information collection, the USPTO will provide metrics on outreach efforts conducted by the member library as stipulated by the USPTO; and send representatives to attend the USPTO-hosted PTRC training seminars.

Since the PTRC requirements stipulate that the participating libraries must submit information (metrics) in order to be designated as a PTRC, the USPTO is submitting this new information collection for review under the PRA. The information collected will enable the USPTO to more effectively train the PTRC staff who, in turn, provide assistance and training to public customers in the areas of patent and trademarks. As the PTRCs continue to move away from the physical distribution of hard copy information, the USPTO is interested in what types of new and different services the PTRC of the future should offer customers. Collection of this information will enable the USPTO to more effectively service its current customers while planning for the future.

The USPTO has developed a worksheet to collect the metrics concerning the use of the patent and trademark services and the public outreach efforts from the libraries. On the USPTO’s behalf, the metrics will be collected on a quarterly basis through a third-party vendor. The information will only be collected electronically. The PTRCs will be given a password to input their information.

II. Method of Collection

The metrics will be submitted electronically to the USPTO.

III. Data

OMB Number: 0651–00xx.
Form Number(s): N/A.
Type of Review: New information collection.
