D. Failure To Submit
If the Agency does not receive a Section 408(f) Response Form identifying a person who agrees to submit the required data within 90 days after publication of the final order in the Federal Register, EPA will proceed to revoke the fenamiphos tolerances at 40 CFR 180.349. Such revocation order is subject to the objection and hearing procedures in FFDCA section 408(g)(2), but the only material issue in such a procedure is whether a submission required by the order was made in a timely fashion.

Additional events that may be the basis for modification or revocation of fenamiphos tolerances include, but are not limited to, the following:
1. No person submits on the required schedule an acceptable proposal or final protocol when such is required to be submitted to the Agency for review.
2. No person submits on the required schedule an adequate progress report on a study as required by the order.
3. No person submits on the required schedule acceptable data as required by the final order.
4. No person submits supportable certifications as to the conditions of submitted data, where required by order and where no other cited or submitted study meets the data requirements the study was intended to fulfill.

V. Statutory and Executive Order Reviews
As required by statute, this proposal to require submission of data in support of tolerances is in the form of an order and not a rule. (21 U.S.C. 346a(f)(1)(C)). Under the Administrative Procedures Act, orders are expressly excluded from the definition of a rule. (5 U.S.C. 551(4)). Accordingly, the regulatory assessment requirements imposed on rulemaking do not, therefore, apply to this action.
