Segregation of Lands: An Interim Rule, published in the Federal Register (76 FR 23198) on April 26, 2011, amended the BLM regulations found in 43 CFR parts 2090 and 2800 to provide provisions to allow the BLM to temporarily segregate from the operation of the public land laws, by publication of a Federal Register notice, public lands included in a pending solar energy generation ROW application in order to promote the orderly administration of the public lands.

Upon segregation under the Interim Rule, such lands will not be subject to appropriation under the public land laws, including location under the Mining Law of 1872 (but not the Mineral Leasing Act or the Materials Act), subject to valid existing rights, for a period of up to 2 years.

This segregation is warranted to allow for the orderly administration of the public lands to facilitate the development of valuable renewable energy generation and mining claims. This temporary segregation does not affect valid existing rights in mining claims located before this segregation notice. Licenses, permits, cooperative agreements, or discretionary use authorizations of a temporary nature which would not impact lands identified in this notice may be allowed with the approval of an authorized officer of the BLM during the segregative period.

The lands segregated under this Notice are legally described as follows:

Mount Diablo Meridian
T. 27 S., R. 59 E., sec. 3, lots 1 through 3. The area described contains 13,043.20 acres, more or less, in Clark County, Nevada.

The BLM intends to resurvey T. 27 S., R. 59 E., sec. 3, lots 1 through 3. The description will be replaced for those lands upon final approval of the official plat of survey. The segregation of lands identified in this notice will not exceed 2 years from the date of publication.

Termination of the segregation, as provided in the Interim Rule, is the date that is the earliest of the following:

1. Upon issuance of a decision by the authorized officer granting, granting with modifications, or denying the application for a ROW; automatically at the end of the 2 year segregation; or
2. Upon publication of a Federal Register notice of termination of the segregation.

Upon termination of segregation of these lands, all lands subject to this segregation will automatically reopen to appropriation under the public land laws.

Authority: 43 CFR 2800 and 2900.
