40 CFR Part 52

Approval and Promulgation of Air Quality Implementation Plans; West Virginia: Kentucky; Ohio; Huntington-Ashland Nonattainment Area; Determinations of Attainment of the 1997 Annual Fine Particulate Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is determining that the tri-state Huntington-Ashland, West Virginia-Kentucky-Ohio, fine particulate (PM$_{2.5}$) nonattainment Area (hereafter referred to as “the Huntington-Ashland Area” or “Area”) has attained the 1997 annual PM$_{2.5}$ national ambient air quality standards (NAAQS) and additionally, that the Area has attained the 1997 annual PM$_{2.5}$ NAAQS by its applicable attainment date of April 5, 2010. The Huntington-Ashland Area is comprised of Cabell and Wayne Counties in their entireties and a portion of Mason County (Graham Tax District) in West Virginia; Boyd County in its entirety and a portion of Lawrence County in Kentucky; and a portion of Adams, a portion of Gallia, Lawrence, and Scioto Counties in Ohio. These determinations of attainment are based upon quality-assured and certified ambient air monitoring data for the 2007–2009 period showing that the Area has monitored attainment of the 1997 annual PM$_{2.5}$ NAAQS. The requirements for the Area to submit an attainment demonstration and associated reasonably available control measures (RACM), a reasonable further progress (RFP) plan, contingency measures, and other planning State Implementation Plan (SIP) revisions related to attainment of the standard shall be suspended so long as the Area continues to attain the 1997 annual PM$_{2.5}$ NAAQS.

DATES: Effective Date: This final rule is effective on October 7, 2011.

SUPPLEMENTARY INFORMATION:

I. What action is EPA taking?

EPA is determining that the Huntington-Ashland Area (comprised of Cabell and Wayne Counties in their entireties and a portion of Mason County (Graham Tax District) in West Virginia; Boyd County in its entirety and a portion of Lawrence County in Kentucky; and a portion of Adams, a portion of Gallia, Lawrence, and Scioto Counties in Ohio) has attained the 1997 annual PM$_{2.5}$ NAAQS based on the 2007–2009 data as well as the 2008–2010 data. EPA is also determining, in accordance with EPA’s PM$_{2.5}$ Implementation Rule of April 25, 2007 (72 FR 20664), that the Huntington-Ashland Area has attained the 1997 annual PM$_{2.5}$ NAAQS by its applicable attainment date of April 5, 2010.

II. What is the effect of this action?

This final action, in accordance with 40 CFR 51.1004(c), suspends the requirements for this Area to submit attainment demonstrations, associated RACM, RFP plans, contingency measures, and other planning SIPs related to attainment of the 1997 annual PM$_{2.5}$ NAAQS as long as this Area continues to meet the 1997 annual PM$_{2.5}$ NAAQS. Finalizing this action does not constitute a redesignation of the Huntington-Ashland Area to attainment for the 1997 annual PM$_{2.5}$ NAAQS.
under section 107(d)(3) of the Clean Air Act (CAA). Further, finalizing this action does not involve approving maintenance plans for the Area as required under section 175A of the CAA, nor does it involve a determination that the Area has met all requirements for a redesignation. In addition, EPA is making a separate and independent determination that the Area has attained the 1997 annual PM<sub>2.5</sub> standard by its applicable attainment date (April 5, 2010), thereby satisfying EPA’s requirement pursuant to section 179(c)(1) of the CAA to make a determination based on the Area’s air quality data as of the attainment date whether the Area attained the standard by that date.

III. What is EPA’s final action?

EPA is determining that the Huntington-Ashland Area has data indicating it has attained the 1997 annual PM<sub>2.5</sub> NAAQS, and additionally, that the Area has attained the standard by its applicable attainment date (April 5, 2010). These determinations are based upon quality-assured, quality-controlled, and certified ambient air monitoring data showing that this Area has monitored attainment of the 1997 annual PM<sub>2.5</sub> NAAQS during the period 2007–2009 and continues to monitor attainment during the 2008–2010 period. The determination of attainment data action, in accordance with 40 CFR 51.1004(c), will suspend the requirements for this Area to submit attainment demonstrations, associated RACM, RFP plans, contingency measures, and other planning SIPs related to attainment of the 1997 annual PM<sub>2.5</sub> NAAQS as long as the Area continues to meet the 1997 annual PM<sub>2.5</sub> NAAQS. These actions are being taken pursuant to section 179(c)(1) of the CAA and are consistent with the CAA and its implementing regulations.

IV. Statutory and Executive Order Reviews

This action makes determinations of attainment based on air quality, and will result in the suspension of certain Federal requirements, and it will not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994). In addition, this 1997 PM<sub>2.5</sub> clean NAAQS data determination for the Huntington-Ashland Area does not have Tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on Tribal governments or preempt Tribal law.

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. A major rule cannot take effect until 60 days after it is published in the Federal Register. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 7, 2011. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

For purposes of judicial review, the two determinations approved by today’s action are severable from one another.
