

conditions on the Enrolled Property in order to receive coverage regarding incidental take of California red-legged frogs, California tiger salamanders, and Smith's blue butterflies. The Agreement and requested permit would allow the Applicant to return to baseline conditions after the end of the term of the Agreement and prior to the expiration of the 30-year permit, if so desired by the Applicant.

### Public Review and Comments

The Service has made a preliminary determination that the proposed Agreement and permit application are eligible for categorical exclusion under the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 *et seq.*). We explain the basis for this determination in an Environmental Action Statement, which also is available for public review.

Individuals wishing copies of the permit application, copies of our draft Environmental Action Statement, and copies of the Agreement, including a map of the proposed permit area, should contact the Ventura Fish and Wildlife Office (see **ADDRESSES**).

If you wish to comment on the permit application or the Agreement, you may submit your comments to one of the addresses listed in the **ADDRESSES** section of this document. Comments and materials received, including names and addresses of respondents, will be available for public review, by appointment, during normal business hours at the address in the **ADDRESSES** section above and will become part of the public record, under section 10(c) of the Act.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

We will evaluate this permit application, associated documents, and comments we receive to determine whether the permit application meets the requirements of section 10(a) of the Act and NEPA regulations. If we determine that the requirements are met, we will sign the proposed Agreement and issue an enhancement of survival permit under section 10(a)(1)(A) of the Act to the Applicant for take of the California red-legged frog, California tiger salamander, and Smith's blue butterfly incidental to otherwise

lawful activities in accordance with the terms of the Agreement. We will not make our final decision until after the end of the 30-day comment period and will fully consider all comments we receive during the comment period.

The Service provides this notice under section 10(c) of the Act and under implementing regulations for NEPA (40 CFR 1506.6).
