Dorado, AR

ENVIRONMENTAL PROTECTION AGENT

ACTION: Notice of a final decision on a no migration petition reissuance.

SUMMARY: Notice is hereby given that a decision has been granted to Great Lakes Chemical Corporation for two Class I injection wells located at El Dorado, Arkansas.

A public notice was issued July 7, 2011.

Final Notice Published August 22, 2011.

A no migration petition reissuance of an exemption to the land disposal restrictions, under the 1984 Hazardous and Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act, has been granted to Great Lakes Chemical Corporation, El Dorado, AR.

The company has adequately demonstrated that hazardous constituents from the injection zone for underground injection by Great Lakes, as long as the waste remains hazardous, will not migrate to a reasonable degree of certainty. There will be no migration of hazardous constituents from the injection zone for underground injection by Great Lakes, as long as the waste remains hazardous, in the specific restricted hazardous waste injection zones.

This final decision allows the continued injection of hazardous waste from the El Dorado, Arkansas facility until December 31, 2017, unless EPA determines that additional conditions should be made at the meeting are:

A. Approval of Minutes
B. Business Reports
1. Farm Credit System Insurance Fund Progress Review
2. Proposed 2012 and 2013 Budgets
3. Farm Credit Insurance Companies, Inc. Report on Incess and Other Operations
4. FCSIC Quarterly Financial Reports
5. Annual Performance Plan FY 2012–2013
6. Annual Business Plan
C. New Business
E. Farm Credit System Insurance Corporation Board Minutes
F. Business Assistance

DATE AND TIME: The meeting of the Board will be held at the offices of the Farm Credit System Insurance Corporation, 1500 Farm Credit Drive, McLean, Virginia, on September 8, 2011, from 1 p.m. until such time as the Board concludes its business.
