

comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final supplemental environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the Draft SEIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Certain Welded Carbon Steel Pipe and Tube From Turkey: Notice of Extension of Time Limit for Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Dennis McClure or Victoria Cho, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-5973 or (202) 482-5075, respectively.

Background

On June 8, 2011, the Department published the preliminary results of the administrative review of the antidumping order on certain welded carbon steel pipe and tube from Turkey for the period May 1, 2009, through April 30, 2010. See *Certain Welded Carbon Steel Pipe and Tube From Turkey; Notice of Preliminary Results of Antidumping Duty Administrative Review*, 76 FR 33204 (June 8, 2011). The final results are currently due no later than October 6, 2011.

Extension of Time Limit of the Final Results

In antidumping duty administrative reviews, section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the "Act"), requires the Department to make a final determination in an administrative review of an antidumping duty order within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the final results to a maximum of 180 days.

We determine that it is not practicable to complete the final results of this administrative review within the 120-day time limit, because the Department requires additional time to analyze issues in case and rebuttal briefs

submitted by parties, including comments on our cost calculation methodology. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is fully extending the time limit for the final results to December 5, 2011.

We are issuing and publishing this notice in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: September 7, 2011.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Magnesium Metal from the Russian Federation: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On May 6, 2011, the Department of Commerce published the preliminary results of the administrative review of the antidumping duty order on magnesium metal from the Russian Federation. The period of review (POR) is April 1, 2009, through March 31, 2010.

Based on our analysis of the comments received we have made changes in the margin for one company. Therefore, the final results differ from the preliminary results. The final margin is listed below in the section entitled "Final Results of the Review."

DATES: *Effective Date:* September 13, 2011.

FOR FURTHER INFORMATION: Hermes Pinilla, AD/CVD Operations, Office 5, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-3477.

SUPPLEMENTARY INFORMATION:

Background

On May 6, 2011, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on magnesium metal from the Russian Federation. See *Magnesium Metal From the Russian Federation: Preliminary Results of Antidumping Duty Administrative*

Review, 76 FR 26247 (May 6, 2011) (*Preliminary Results*).

We invited interested parties to comment on the *Preliminary Results* and received case and rebuttal briefs from interested parties. The Department has conducted this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The merchandise covered by the order¹ is magnesium metal (also referred to as magnesium), which includes primary and secondary pure and alloy magnesium metal, regardless of chemistry, raw material source, form, shape, or size. Magnesium is a metal or alloy containing by weight primarily the element magnesium. Primary magnesium is produced by decomposing raw materials into magnesium metal. Secondary magnesium is produced by recycling magnesium-based scrap into magnesium metal. The magnesium covered by the order includes blends of primary and secondary magnesium.

The subject merchandise includes the following pure and alloy magnesium metal products made from primary and/or secondary magnesium, including, without limitation, magnesium cast into ingots, slabs, rounds, billets, and other shapes, and magnesium ground, chipped, crushed, or machined into raspings, granules, turnings, chips, powder, briquettes, and other shapes: (1) Products that contain at least 99.95 percent magnesium, by weight (generally referred to as "ultra-pure" magnesium); (2) products that contain less than 99.95 percent but not less than 99.8 percent magnesium, by weight (generally referred to as "pure" magnesium); and (3) chemical combinations of magnesium and other material(s) in which the magnesium content is 50 percent or greater, but less than 99.8 percent, by weight, whether or not conforming to an "ASTM Specification for Magnesium Alloy."

The scope of the order excludes: (1) Magnesium that is in liquid or molten form and (2) mixtures containing 90 percent or less magnesium in granular or powder form by weight and one or more of certain non-magnesium granular materials to make magnesium-based reagent mixtures, including lime, calcium metal, calcium silicon, calcium carbide, calcium carbonate, carbon, slag coagulants, fluorspar, nepheline syenite,

feldspar, alumina (Al₂O₃), calcium aluminate, soda ash, hydrocarbons, graphite, coke, silicon, rare earth metals/mischmetal, cryolite, silica/fly ash, magnesium oxide, periclase, ferroalloys, dolomite lime, and colemantite.²

The merchandise subject to the order is currently classifiable under items 8104.11.00, 8104.19.00, 8104.30.00, and 8104.90.00 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS item numbers are provided for convenience and customs purposes, the written description of the merchandise covered by the order is dispositive.

No-Shipment Determination

Based on the information Solikamsk Magnesium Works (SMW) provided on the record, we continue to find that SMW did not have knowledge of exports or involvement in imports of magnesium metal into the United States during the POR. Thus, we did not request SMW to report such sales for purposes of calculating a dumping margin in this administrative review.

See *Preliminary Results*, 76 FR at 26248-49. Therefore, we have determined that SMW did not make shipments of subject merchandise during the POR.

Analysis of the Comments Received

All issues raised in the case and rebuttal briefs by parties to this administrative review of the order on magnesium metal from the Russian Federation are addressed in the "Issues and Decision Memorandum" from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Ronald K. Lorentzen, Deputy Assistant Secretary for Import Administration, dated concurrently with this notice (Decision Memorandum), which is hereby adopted by this notice. A list of the issues which parties have raised and to which we have responded is in the Decision Memorandum and attached to this notice as an Appendix. The

² This second exclusion for magnesium-based reagent mixtures is based on the exclusion for reagent mixtures in the 2000-2001 investigations of magnesium from the People's Republic of China, Israel, and the Russian Federation. See *Notice of Final Determination of Sales at Less Than Fair Value: Pure Magnesium in Granular Form From the People's Republic of China*, 66 FR 49345 (September 27, 2001), *Notice of Final Determination of Sales at Less Than Fair Value: Pure Magnesium From Israel*, 66 FR 49349 (September 27, 2001), and *Notice of Final Determination of Sales at Not Less Than Fair Value: Pure Magnesium From the Russian Federation*, 66 FR 49347 (September 27, 2001). These mixtures are not magnesium alloys because they are not chemically combined in liquid form and cast into the same ingot.

¹ We revoked the order effective April 15, 2010. See *Magnesium Metal From the Russian Federation: Revocation of Antidumping Duty Order Pursuant to Five-Year Sunset Review*, 76 FR 13128 (March 10, 2011).
