BILLING CODE 3510–22–P
Computer Matching Program Between the Social Security Administration and the Department of Defense for Verification of Social Security Supplemental Security Income Payments and Special Veterans Benefits

A. Participating Agencies:
Participants in this computer matching program are the Social Security Administration (SSA) and the Defense Manpower Data Center (DMDC) of the Department of Defense (DoD).

B. Purpose:
The purpose of this agreement is to verify eligibility and calculating payment amounts for certain SSI and SVB recipients/beneficiaries. Conducting such a manual match would impose a considerable administrative burden, constitute a greater intrusion of the individual’s privacy and would result in additional delay in the eventual SSI payment and SVB benefit recovery of unauthorized or erroneous payment, and not all individuals would be identified.

C. Matching Program:
The SSA and DMDC have concluded an agreement to conduct a computer matching program between SSA under the Social Security Act to verify the eligibility/entitlement of and to verify payment/benefit amounts for certain SSI and SVB recipients/beneficiaries. The purpose of this agreement is to verify applicants for and recipients of Supplement Security Income (SSI) payments and Special Veterans Benefits (SVB) with respect of determination of eligibility and calculating payment amounts.

D. Dates:
This proposed action will become effective October 14, 2011 and matching may commence unless changes to the matching program are required due to public comments or by Congressional or by Office of Management and Budget objections. Any public comment must be received before the effective date.

E. Addresses:
You may submit comments, identified by docket number and/or Regulatory Information Number (RIN) and title, by any of the following methods:

Instructions: All submissions received must include the agency name and docket number or Regulatory Information Number (RIN) for this Federal Register document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at http://www.regulations.gov as they are received without change, including any personal identifiers or contact information.

F. For Further Information Contact:
