#### SUPPLEMENTARY INFORMATION:

*Title:* Importation of Fruits and Vegetables.

*OMB Number:* 0579-0264.

*Type of Request:* Extension of approval of an information collection.

*Abstract:* Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*) (PPA), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA.

The regulations in Subpart—Fruits and Vegetables (7 CFR 319.56-1 through 319.56-51) allow a number of fruits and vegetables to be imported into the United States, under specified conditions, from certain parts of the world while continuing to protect against the introduction of pests into the United States. Importation of a variety of fruits and vegetables from Belgium, Central America, China, the Dominican Republic, Jamaica, Jerusalem, Mexico, the Netherlands, South America, Trinidad, and Tobago requires the use of certain information collection activities, including phytosanitary certificates, fruit fly monitoring records, and cooperative agreements.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper

performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

*Estimate of burden:* The public reporting burden for this collection of information is estimated to average 0.2557172 hours per response.

*Respondents:* Growers, shippers, and national plant protection organizations.

*Estimated annual number of respondents:* 15.

*Estimated annual number of responses per respondent:* 32.06666.

*Estimated annual number of responses:* 481.

*Estimated total annual burden on respondents:* 123 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 8th day of September, 2011.

**Kevin Shea,**

*Acting Administrator, Animal and Plant Health Inspection Service.*
