**SUPPLEMENTARY INFORMATION: DOE**

invites public comment on DOE's intent to publish a guidance document entitled: Electricity Sector Cybersecurity Risk Management Process Guideline. The primary goal of this guideline is to describe a risk management process that is targeted to the specific needs of electricity sector organizations. This document is designed to add to the body of resources that help refine the definition and application of effective cybersecurity for all organizations in the Electricity Sector.

The Electricity Sector Cybersecurity Risk Management Process Guideline was developed by the DOE, in collaboration with the National Institute of Standards and Technology (NIST), the North American Electric Reliability Corporation (NERC), and representatives from both the public and private sector. The NIST Special Publication 800-39, Managing Information Security Risk provides the foundational methodology for this document.

The Electricity Sector Cybersecurity Risk Management Process Guideline is available for review at [https://public.commentworks.com/CW\\_DOE\\_AWF/](https://public.commentworks.com/CW_DOE_AWF/).
