

to be bearing an invalidly licensed or used trademark are not excluded from the scope).

- **Zwipes™**: A notebook or notebook organizer made with a blended polyolefin writing surface as the cover and pocket surfaces of the notebook, suitable for writing using a specially-developed permanent marker and erase system (known as a Zwipes™ pen). This system allows the marker portion to mark the writing surface with a permanent ink. The eraser portion of the marker dispenses a solvent capable of solubilizing the permanent ink allowing the ink to be removed. The product must bear the valid trademark Zwipes™ (products found to be bearing an invalidly licensed or used trademark are not excluded from the scope).

- **FiveStar® Advance™**: A notebook or notebook organizer bound by a continuous spiral, or helical, wire and with plastic front and rear covers made of a blended polyolefin plastic material joined by 300 denier polyester, coated on the backside with PVC (poly vinyl chloride) coating, and extending the entire length of the spiral or helical wire. The polyolefin plastic covers are of specific thickness; front cover is 0.019 inches (within normal manufacturing tolerances) and rear cover is 0.028 inches (within normal manufacturing tolerances). Integral with the stitching that attaches the polyester spine covering, is captured both ends of a 1" wide elastic fabric band. This band is located 2³/₈" from the top of the front plastic cover and provides pen or pencil storage. Both ends of the spiral wire are cut and then bent backwards to overlap with the previous coil but specifically outside the coil diameter but inside the polyester covering. During construction, the polyester covering is sewn to the front and rear covers face to face (outside to outside) so that when the book is closed, the stitching is concealed from the outside. Both free ends (the ends not sewn to the cover and back) are stitched with a turned edge construction. The flexible polyester material forms a covering over the spiral wire to protect it and provide a comfortable grip on the product. The product must bear the valid trademarks FiveStar® Advance™ (products found to be bearing an invalidly licensed or used trademark are not excluded from the scope).

- **FiveStar Flex™**: A notebook, a notebook organizer, or binder with plastic polyolefin front and rear covers joined by 300 denier polyester spine cover extending the entire length of the spine and bound by a 3-ring plastic fixture. The polyolefin plastic covers are of a specific thickness; front cover is

0.019 inches (within normal manufacturing tolerances) and rear cover is 0.028 inches (within normal manufacturing tolerances). During construction, the polyester covering is sewn to the front cover face to face (outside to outside) so that when the book is closed, the stitching is concealed from the outside. During construction, the polyester cover is sewn to the back cover with the outside of the polyester spine cover to the inside back cover. Both free ends (the ends not sewn to the cover and back) are stitched with a turned edge construction. Each ring within the fixture is comprised of a flexible strap portion that snaps into a stationary post which forms a closed binding ring. The ring fixture is riveted with six metal rivets and sewn to the back plastic cover and is specifically positioned on the outside back cover. The product must bear the valid trademark FiveStar Flex™ (products found to be bearing an invalidly licensed or used trademark are not excluded from the scope).

Merchandise subject to this order is typically imported under headings 4810.22.5044, 4811.90.9050, 4820.10.2010, 4820.10.2020, 4820.10.2030, 4820.10.2040, 4820.10.2060, and 4820.10.4000 of the Harmonized Tariff Schedule of the United States ("HTSUS"). The HTSUS headings are provided for convenience and customs purposes; however, the written description of the scope of this order is dispositive.

Period of Review ("POR")

The POR is September 1, 2009, through August 31, 2010.

Final Rescission of Review

Because there is no information on the record which indicates that the Watanabe Group, Lian Li, and Leo/Denmax made shipments of subject merchandise which entered the United States during the POR, and because we did not receive any comments on our *Preliminary Rescission*, in accordance with 19 CFR 351.213(d)(3) and consistent with our practice, we are rescinding this review of the antidumping duty order on certain lined paper products from the PRC for the period of September 1, 2009, through August 31, 2010. The cash deposit rate for the Watanabe Group, Lian Li, and Leo/Denmax will continue to be the rate established in the most recently completed segment of this proceeding.

The Department will instruct U.S. Customs and Border Protection ("CBP") to assess antidumping duties on all appropriate entries. Antidumping duties shall be assessed at rates equal to the

cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(2). The Department will issue appropriate assessment instructions directly to CBP 15 days after publication of this notice.

Notification to Importers

This notice serves as a final reminder to importers for whom this review is being rescinded, as of the publication date of this notice, of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding APOs

This notice also serves as a reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: September 12, 2011.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Light-Walled Rectangular Pipe and Tube From Turkey; Notice of Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On June 8, 2011, the Department of Commerce (the Department) published in the **Federal Register** the preliminary results of the administrative review of the antidumping duty order on light-walled rectangular pipe and tube from Turkey. See *Light-Walled Rectangular Pipe and Tube From Turkey; Notice of Preliminary Results of Antidumping Duty Administrative Review*, 76 FR 33200 (June 8, 2011) (*Preliminary Results*). We gave interested parties an opportunity to comment on the *Preliminary Results*, but we received no comments.

DATES: *Effective Date:* September 19, 2011

FOR FURTHER INFORMATION CONTACT: Tyler Weinhold, or Robert James, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-1121 or (202) 482-0649, respectively.

SUPPLEMENTARY INFORMATION:

Background

On June 8, 2011, the Department published the preliminary results of administrative review of the antidumping duty order covering light-walled rectangular pipe and tube from Turkey. See *Preliminary Results*. The respondent subject to this review is Noksel Celik Boru Sanayi A.S., (Noksel). The petitioners in this proceeding are Atlas Tube, Inc. and Searing Industries, Inc. (collectively, Petitioners).

In the *Preliminary Results*, the Department stated that interested parties were to submit case briefs within 30 days of publication of the *Preliminary Results* and rebuttal briefs within five days after the due date for filing case briefs. See *Preliminary Results*, 76 FR at 33204. No interested party submitted briefs. We have made no changes for the final results.

Period of Review

The period of review (POR) is May 1, 2009, through April 30, 2010.

Scope of the Order

The merchandise subject to this order is certain welded carbon quality light-walled steel pipe and tube, of rectangular (including square) cross section, having a wall thickness of less than 4 mm. The term carbon-quality steel includes both carbon steel and alloy steel which contains only small amounts of alloying elements. Specifically, the term carbon-quality includes products in which none of the

elements listed below exceeds the quantity by weight respectively indicated: 1.80 percent of manganese, or 2.25 percent of silicon, or 1.00 percent of copper, or 0.50 percent of aluminum, or 1.25 percent of chromium, or 0.30 percent of cobalt, or 0.40 percent of lead, or 1.25 percent of nickel, or 0.30 percent of tungsten, or 0.10 percent of molybdenum, or 0.10 percent of niobium, or 0.15 percent vanadium, or 0.15 percent of zirconium. The description of carbon-quality is intended to identify carbon-quality products within the scope. The welded carbon-quality rectangular pipe and tube subject to this order is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7306.61.50.00 and 7306.61.70.60. While HTSUS subheadings are provided for convenience and U.S. Customs and Border Protection (CBP) purposes, our written description of the scope of the order is dispositive.

Final Results of Review

The Department has determined that the following margins exist for the period May 1, 2009, through April 30, 2010:

Manufacturer	Weighted Average Margin (percentage)
Noksel Celik Boru Sanayi A.S	0.00

Assessment Rates

Pursuant to these final results, the Department has determined, and CBP shall assess, antidumping duties on all appropriate entries. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of these final results. Pursuant to 19 CFR 351.212(b)(1), we calculated importer-specific (or customer-specific) *ad valorem* duty assessment rates based on the ratio of the total amount of the dumping margins calculated for the examined sales to the total entered value of those same sales. We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review if any importer-specific (or customer-specific) assessment rate calculated in the final results of this review is above *de minimis*.

The Department clarified its “automatic assessment” regulation on May 6, 2003. See *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003) (*Assessment of*

Antidumping Duties). This clarification will apply to entries of subject merchandise during the POR produced by Noksel for which Noksel did not know the merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the 27.04 percent all-others rate from the less than fair value (LTFV) investigation if there is no company-specific rate for an intermediary involved in the transaction. See *Notice of Antidumping Duty Order: Light-Walled Rectangular Pipe and Tube From Turkey*, 73 FR 31065 (May 30, 2008). See *Assessment of Antidumping Duties* for a full discussion of this clarification.

Cash Deposit Requirements

Furthermore, the following deposit requirements will be effective upon completion of the final results of this administrative review for all shipments of light-walled rectangular pipe and tube from Turkey entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(c) of the Tariff Act of 1930, as amended (the Act): (1) The cash deposit rate for Noksel will be the rate established in the final results of review; (2) if the exporter is not a firm covered in this review or the LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (3) if neither the exporter nor the manufacturer is a firm covered in this or any previous review conducted by the Department, the cash deposit rate will be the all-others rate 27.04 percent *ad valorem* from the LTFV investigation. *Id.* These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or

destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: September 12, 2011.

Christian Marsh,

Acting Deputy Assistant Secretary for Import Administration.

Certain Polyester Staple Fiber From Taiwan: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On April 21, 2011, the Department of Commerce published the preliminary results of the administrative review of the antidumping duty order on certain polyester staple fiber from Taiwan. The period of review is May 1, 2009, through April 30, 2010. We gave interested parties an opportunity to comment on the preliminary results. We received comments from Far Eastern New Century Corporation. The final weighted-average dumping margin for Far Eastern New Century Corporation is listed below in the "Final Results of the Review" section of this notice.

DATES: *Effective Date:* September 19, 2011.

FOR FURTHER INFORMATION CONTACT:

Michael A. Romani, AD/CVD Operations, Office 5, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington DC 20230; telephone (202) 482-0198.

Background

On April 21, 2011, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on certain polyester staple fiber from Taiwan. See

Certain Polyester Staple Fiber From Taiwan: Preliminary Results of Antidumping Duty Administrative Review, 76 FR 22366 (April 21, 2011) (*Preliminary Results*). We invited interested parties to comment on the *Preliminary Results*. We received comments from the respondent.

The Department has conducted this administrative review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The product covered by the order is polyester staple fiber (PSF). PSF is defined as synthetic staple fibers, not carded, combed or otherwise processed for spinning, of polyesters measuring 3.3 decitex (3 denier, inclusive) or more in diameter. This merchandise is cut to lengths varying from one inch (25 mm) to five inches (127 mm). The merchandise subject to the order may be coated, usually with a silicon or other finish, or not coated. PSF is generally used as stuffing in sleeping bags, mattresses, ski jackets, comforters, cushions, pillows, and furniture. Merchandise of less than 3.3 decitex (less than 3 denier) currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) at subheading 5503.20.00.20 is specifically excluded from the order. Also specifically excluded from the order are polyester staple fibers of 10 to 18 denier that are cut to lengths of 6 to 8 inches (fibers used in the manufacture of carpeting). In addition, low-melt PSF is excluded from the order. Low-melt PSF is defined as a bi-component fiber with an outer sheath that melts at a significantly lower temperature than its inner core.

The merchandise subject to the order is currently classifiable in the HTSUS at subheadings 5503.20.00.45 and 5503.20.00.65. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise subject to the order is dispositive.

Analysis of Comments Received

All issues raised in the case briefs by parties to this review are addressed in the "Issues and Decision Memorandum" from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Ronald K. Lorentzen, Deputy Assistant Secretary for Import Administration, dated concurrently with this notice (Decision Memorandum), and hereby adopted by this notice. A list of the issues which parties have raised and to which we have responded in the Decision Memorandum is attached to

this notice as an Appendix. The Decision Memorandum, which is a public document, is on file in the Department's Central Records Unit of the main Commerce building, Room 7046, and is accessible on the Internet at <http://ia.ita.doc.gov/frn/index.html>. The paper copy and electronic version of the Decision Memorandum are identical in content.

Results of Cost Test

For these final results, we continue to find that, for certain products, more than 20 percent of the respondent's sales in the home market were at prices below the cost of production and the below-cost sales were made within an extended period of time in substantial quantities. In addition, these sales were made at prices that did not permit the recovery of costs within a reasonable period of time. Therefore, we disregarded these sales and used the remaining sales of the same product as the basis for determining normal value in accordance with section 773(b)(1) of the Act.

Final Results of the Review

We made one change to our calculations announced in the *Preliminary Results*. In calculating the cost of production in the *Preliminary Results*, we inadvertently used the ratio for general and administrative expenses reported by Far Eastern New Century Corporation in its initial response to our questionnaire rather than a correction to this ratio which the respondent provided in a subsequent submission. In these final results we employed the subsequently reported ratio. This change had no effect on the weighted-average dumping margin determined for Far Eastern New Century Corporation. As a result of our review, we determine that a weighted-average dumping margin of 2.92 percent exists for Far Eastern New Century Corporation for the period May 1, 2009, through April 30, 2010.

Assessment Rates

The Department shall determine and U.S. Customs and Border Protection (CBP) shall assess antidumping duties on all appropriate entries. Although Far Eastern New Century Corporation indicated that it was not the importer of record for any of its sales to the United States during the period of review, it reported the names of the importers of record for all of its U.S. sales. Because Far Eastern New Century Corporation also reported the entered value for all of its U.S. sales, we have calculated importer-specific assessment rates for the merchandise in question by
