$8,220 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the labor hours or cost in this ICR compared to the previous ICR. This situation is due to two considerations: (1) The regulations have not changed over the past three years and not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative, or non-existent, so there is no significant change in the overall burden. There is, however, an increase in the estimated burden cost as currently identified in the OMB Inventory of Approved ICR. Burdens. The increase is not due to any program changes. The change in burden cost is due to the use of the most updated labor rates.

ENVIRONMENTAL PROTECTION AGENCY

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NESHAP for Engine Test Cells/Stands (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before October 20, 2011.

ADDRESSES: Submit your comments, referencing docket ID number EPA–HQ–OECA–2011–0203 to: (1) EPA online using http://www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 28221T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Learia Williams, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564–4113; fax number: (202) 564–0050; e-mail address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 9, 2011 (76 FR 26900), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA–HQ–OECA–2011–0203, which is available for public viewing online at http://www.regulations.gov, and in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566–1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566–1752.

Use EPA’s electronic docket and comment system at http://www.regulations.gov, to either submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select “docket search,” then key in the docket ID number identified above. Please note that EPA’s policy is that public comments, whether submitted electronically or in paper will be made available for public viewing at http://www.regulations.gov, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. Title: NESHAP for Engine Test Cells/ Stands (Renewal)

ICR Numbers: EPA ICR Number 2066.05, OMB Control Number 2060–0483.

ICR Status: This ICR is schedule to expire on November 30, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations in title 40 of the CFR, after appearing in the Federal Register when approved, are listed in 40 CFR part 9, and displayed either by publication in the Federal Register or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Engine Test Cells/Stands were proposed on May 14, 2002 (67 FR 34547), and promulgated on May 27, 2003 (68 FR 28785). These standards apply to any existing, reconstructed, or new affected sources. An affected source is the collection of all equipment and activities associated with engine test cells/stands used for testing uninstalled stationary or uninstalled mobile engines. Respondents of affected sources are subject to the requirements of 40 CFR part 63, subpart A, the General Provisions, unless the regulation specifies otherwise.

Owners and operators must submit an initial notification reports upon the construction, or reconstruction of any engine test cells/stands used for testing internal combustion engines. The respondents are required to submit a semiannual compliance report. If there were no deviations from the emission limitation and the continuous emission monitoring system (CEMS) was operating correctly, the semiannual report must contain a statement that no deviation occurred. If a deviation occurred from an emission limit, the report must contain detailed information of the nature of the deviation. Performance test reports are the Agency’s records of a source’s initial capability to comply with the emission standards, and serve as a record of the operating conditions under which compliance is to be achieved.

The information generated by monitoring, recordkeeping and reporting requirements described in this ICR are used by the Agency to ensure that facilities affected by the standard
continue to operate the control equipment and achieve continuous compliance with the regulation. Owners or operators of engine test cells/stands facilities subject to the rule must maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart PPPPP, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

In order to ensure compliance with these standards, adequate reporting and recordkeeping are necessary. In the absence of such information, enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information estimated to average 76 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining, information, and disclosing and providing information. All existing ways will have to adjust with any previously applicable instructions and requirements that have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Engine test cells/stands.

Estimated Number of Respondents: 18.

Frequency of Response: Initially, annually, and semiannually.

Estimated Total Annual Hour Burden: 3,043.

Estimated Total Annual Cost: $293,761, which includes $288,361 in labor costs, no capital/startup costs, and $5,400 in operation and maintenance (O&M) costs.

Changes in the Estimated: There is no increase in the number of affected facilities or the number of responses as compared to the previous ICR. There is, however, an increase in the estimated burden cost as currently identified in the OMB Inventory of Approved ICR Burdens. The increase is not due to any program changes. The change in burden cost is due to the use of the most updated labor rates.
