from the original estimates made in November 2004. In addition, 1,500 more flight training providers have participated in this program.

TSA estimates that it will take the 26,500 candidates 45 minutes per application (twice per year) to provide TSA with all of the information required, for a total approximate application burden of 39,750 hours per year. Flight training providers must keep records for five years from the time they are created, and it is estimated each of the 4,500 flight training providers will carry an annual record keeping burden of 104 hours, for a total of 468,000 hours. Thus, TSA estimates the combined hour burden associated with this collection to be 507,750 hours annually.

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at http://www.reginfo.gov. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to:

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
(2) Evaluate the accuracy of the agency’s estimate of the burden;
(3) Enhance the quality, utility, and clarity of the information to be collected; and
(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

1652–0030: TSA Customer Comment Card. This renewal continues a voluntary program for airport passengers to provide feedback to TSA regarding their experiences with TSA security procedures. This collection of information allows TSA to evaluate and address customer concerns about security procedures and policies.

TSA Customer Comment Cards will collect feedback, and the passenger may voluntarily provide contact information. TSA may use the contact information to respond to the passenger’s comments. For passengers who deposit their cards in the designated drop-boxes, TSA staff at airports will collect the cards, categorize comments, enter the results into an online system for reporting, and respond to passengers as appropriate. Passengers also have the option to mail the cards directly to the address provided on the comment card which varies by airport. The TSA Contact Center will continue to be available for passengers to make comments independently of airport involvement. TSA estimates the number of respondents to be 1,783,800, with an estimated number of 150,880 annual burden hours.
