

I. Background

The Office of Unemployment Insurance (OUI) of the Employment and Training Administration (ETA) has responsibility for the Tax Performance System (TPS) which evaluates the employer-related or tax functions of the UI program. The Contribution Operations report (Form ETA 581) is a comprehensive report of each state's UI tax operations and is essential in providing quarterly tax performance data to OUI. ETA 581 data are the basis for measuring the performance and effectiveness of states' UI tax operations. Using ETA 581 data, the TPS program measures performance, accuracy, and promptness in employer registration (status determinations), report delinquency, collections (accounts receivable), the audit function, and the detection of employer tax avoidance schemes, known as State Unemployment Tax Act (SUTA) Dumping.

II. Desired Focus of Comments

Currently, the Employment and Training Administration is soliciting comments concerning the proposed extension collection of the ETA 581, Contribution Operations Report. Comments are requested to:

- Evaluate whether the proposed collection of information is necessary to assess performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

III. Current Actions

It is important that approval of the ETA 581 report be extended because this report is the only vehicle for collection of information required under the TPS program. If ETA 581 data were not collected, there would be no basis for determining the adequacy of funding for states' UI tax operations, making projections and forecasts in the budgetary process, nor measuring program performance and effectiveness. The ETA 581 accounts receivable data

are necessary in the preparation of complete and accurate financial statements for the Unemployment Trust Fund (UTF) and the maintenance of a modified accrual system for UTF accounting. Data on SUTA Dumping measures state compliance with section 303(k) of the Social Security Act, which is known as the SUTA Dumping Prevention Act of 2004.

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2011-0130]

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44

U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** Notice with a 60-day comment period on this information collection on July 7, 2011.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* 10 CFR part 54, "Requirements for Renewal of Operating Licenses for Nuclear Power Plants."

3. *Current OMB approval number:* 3150-0155.

4. *The form number if applicable:* N/A.

5. *How often the collection is required:* There is a one-time application for any licensee wishing to renew its nuclear power plant's operating license. There is a one-time requirement for each licensee with a renewed operating license to submit a commitment completion letter. All holders of renewed licenses must perform yearly record keeping.

6. *Who will be required or asked to report:* Commercial nuclear power plant licensees who wish to renew their operating licenses and holders of renewed licenses.

7. *An estimate of the number of annual responses:* 60 (7 responses + 53 recordkeeping).

8. *The estimated number of annual respondents:* 7 (3 license renewal applications + 4 commitment completion letters).

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 305,490 hours (252,490 hours reporting plus 53,000 hours recordkeeping).

10. *Abstract:* Title 10 of the Code of Federal Regulations (10 CFR) part 54, establishes license renewal requirements for commercial nuclear power plants and describes the information that licensees must submit to the NRC when applying for a license renewal. The application must contain information on how the licensee will manage the detrimental effects of age-related degradation on certain plant systems, structures, and components so as to continue the plant's safe operation during the renewal term. The NRC needs this information to determine whether the licensee's actions will be effective in assuring the plants' continued safe operation.

Holders of renewed licenses must retain in an auditable and retrievable form, for the term of the renewed operating license, all information and

documentation required to document compliance with 10 CFR Part 54. The NRC needs access to this information for continuing effective regulatory oversight.
