#### SUPPLEMENTARY INFORMATION:

**Title:** Supplemental Nutrition Assistance Program Prisoner and Death Match Requirements.

**Form Number:** None.

**OMB Number:** 0584-NEW.

**Expiration Date:** Not Yet Determined.

**Type of Request:** New Collection.

**Abstract:** The Food and Nutrition Service (FNS) published a proposed rule on December 8, 2006 at 71 FR 71075, which would revise the SNAP regulation in 7 CFR part 272 regarding prisoner verification and death matching procedures as mandated by legislation and previously implemented through agency directive.

Section 1003 of the Balanced Budget Act of 1997 (Pub. L. 105-33) amended Section 11(e) of the Food and Nutrition Act of 2008 (7 U.S.C. 2020(e)) to require States to establish systems and take periodic action to ensure that an individual who is detained in a Federal, State, or local penal, correctional, or other detention facility for more than 30 days shall not be eligible to be counted as a household member participating in SNAP. The FNS proposed rule would codify this requirement and define taking periodic action as requiring

States to conduct PVS checks at application and re-certification.

This rule also proposes deceased matching requirements enacted by Public Law 105-379 on November 12, 1998. Public Law 105-379, which amended Section 11 of the Food and Nutrition Act (7 U.S.C 2020), required all State agencies to enter into a cooperative arrangement with the Social Security Administration (SSA) to obtain information on individuals who are deceased and use the information to verify and otherwise ensure that benefits are not issued to such individuals. The law went into effect on June 1, 2000. The mandated requirements were implemented by FNS directive to all SNAP State agencies on February 14, 2000. State agencies are responsible for entering into a matching agreement with SSA in order to access information on deceased individuals. FNS proposed adding a new § 272.14 to codify this requirement in regulation and included requirements for accessing the SSA death master file. These proposed requirements included independently verifying the record prior to taking adverse action, and conducting matches for deceased individuals at application and re-certification.

State agencies have been instructed through FNS directive to implement the provisions of the prisoner verification matches (Pub. L. 105-33) and death file matches (Pub. L. 105-379) as required by law in the applicable legislation, and these matches should already be in place without waiting for formal regulations. FNS believes that it is important to standardize matching procedures to provide quality services to all SNAP participants and qualified applicants while ensuring that SNAP benefits are issued only to qualified individuals and households. In doing so, FNS and State agencies contribute to the success and integrity of the Program, garnering public support and user confidence in SNAP.

**Affected Public:** Individual/Households, State, Local and Tribal Government. There are no recordkeeping requirements for this data collection.

## **DEPARTMENT OF COMMERCE**

### **Submission for OMB Review; Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

*Agency:* National Oceanic and Atmospheric Administration (NOAA).

*Title:* Commercial Fishing Vessel Cost and Earnings Data Collection Survey in the Northeast Region.

*OMB Control Number:* None.

*Form Number(s):* NA.

*Type of Request:* Regular submission (new information collection).

*Number of Respondents:* 1,280.

*Average Hours per Response:* 1.

*Burden Hours:* 1,280.

*Needs and Uses:* This request is for a new information collection.

Economic data on the costs of operating commercial fishing businesses are needed by the National Marine Fisheries Service (NMFS) to meet the legislative requirements of the Magnuson-Stevens Fishery Conservation and Management Act, the National Environmental Policy Act, Executive Order 12866 and the Regulatory Flexibility Act. The Social Sciences Branch (SSB) of the NMFS, Northeast Fisheries Science Center (NEFSC) is responsible for estimating the economic and social impacts of fishery management actions.

Lack of information on vessel operating costs has severely limited the ability of the SSB to assess fishermen's behavioral responses to changes in regulations, fishing conditions, and market conditions. Establishing an on-going, consistent, data collection program will enable the SSB to provide a level of analysis that meets the needs of the New England Fishery Management Council, the Mid-Atlantic Fishery Management Council and NMFS, on behalf of the Secretary of Commerce, to make informed decisions about the expected economic effects of proposed management alternatives.

*Affected Public:* Business or other for-profit organizations.

*Frequency:* Annually.
