**SUPPLEMENTARY INFORMATION:** On May 25, 2011, the Delaware Department of Natural Resources and Environmental Control (DNREC) submitted a SIP revision that amends the control of VOC emissions from offset lithographic printing and letterpress printing (7 DE Admin Code 1124, Section 47.0). The purpose of this SIP revision is to conform to the new Control Techniques Guidelines (CTG) issued by EPA.

#### I. Background

Section 182(b)(2) of the CAA requires all ozone nonattainment areas, including Delaware, to update relevant regulations for reasonably available control technology (RACT) controls for emission sources covered by EPA's CTG

and to submit the regulations to EPA as SIP revisions. Section 47.0 (Offset Lithographic Printing) under 7 DE Admin Code 1124 (Control of VOC Emissions) was originally developed in 1994 after EPA issued a CTG in 1993 for the control of VOC emissions from the offset lithographic printing industry. (See docket EPA-HQ-OAR-2006-0536 for the 1993 CTG and 62 FR 26399, May 14, 1997 for 7 DE Admin Code 1124, Section 47.0). In September 2006 (EPA-453/R-06-002), EPA updated its CTG for the offset lithographic printing industry by adding control requirements for letterpress printing operations. DNREC revised Section 47.0 (Offset Lithographic Printing and Letterpress Printing) in early 2010 to reflect the new requirements in EPA's 2006 CTG.

#### II. Summary of SIP Revision

DNREC's SIP revision to Section 47.0 that was submitted on May 25, 2011, expands the control of VOC emissions to include letterpress printing presses and set up a new and more stringent 95 percent reduction standard for those control systems installed after April 11, 2011 (effective date of the SIP revision). Amendments to Section 47.0 also include specifying a one-year transition period for facilities to comply with the new requirements and providing flexibility for facilities to locate unspecified temperature monitoring devices for control systems. A detailed summary of EPA's review and rationale for proposing to approve this SIP revision may be found in the Technical Support Document (TSD) for this action which is available on line at <http://www.regulations.gov>, Docket number EPA-R03-OAR-2011-0603.

#### III. Proposed Action

EPA is proposing to approve the Delaware SIP revision for the control of VOC emissions from offset lithographic printing and letterpress printing (7 DE Admin Code 1124, Section 47.0) submitted on May 25, 2011. EPA is soliciting public comments on the issues discussed in this document. These comments will be considered before taking final action.

#### IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely proposes to approve state law as

meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed rule, pertaining to Delaware’s offset lithographic printing and letterpress printing, does not have Tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the State, and EPA notes that it will not impose substantial direct costs on Tribal governments or preempt Tribal law.

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve a portion of the State Implementation Plan (SIP) revision submitted by the State of Oregon for the purpose of addressing the third element of the interstate transport provisions of Clean Air Act (CAA or the Act) section 110(a)(2)(D)(i)(II) for the 1997 8-hour ozone National Ambient Air Quality Standards (NAAQS or standards) and the 1997 and 2006 fine particulate matter (PM<sub>2.5</sub>) NAAQS. The third element of CAA section 110(a)(2)(D)(i)(II) requires that a State not interfere with any other State’s required measures to prevent significant deterioration (PSD) of its air quality.

EPA is also proposing to approve numerous revisions to the Oregon SIP that were submitted to EPA by the State of Oregon on October 8, 2008; October 10, 2008; March 17, 2009; June 23, 2010; December 22, 2010 and May 5, 2011. The revisions include updating Oregon’s new source review (NSR) rules to be consistent with current Federal regulations and streamlining Oregon’s air quality rules by clarifying requirements, removing duplicative rules, and correcting errors. The revisions were submitted in accordance with the requirements of section 110 and part D of the Act).
