

interim waiver may be extended by DOE for 180 days. Notice of such extension and/or any modification of the terms or duration of the interim waiver shall be published in the **Federal Register** and shall be based on relevant information contained in the record and any comments received subsequent to issuance of the interim waiver.

On August 17, 2011, Samsung requested an extension of its interim waiver. DOE recently published a notice reopening the comment period on its interim final rule for the refrigerator test procedure. 76 FR 57612 (Sept. 15, 2011). DOE intends to consider the comments received in response to this notice before publishing a decision and order concerning Samsung's petition for waiver from the energy efficiency test procedure requirements for residential refrigerators and refrigerator-freezers in 10 CFR part 430, which are applicable to Samsung's electric refrigerators and refrigerator-freezers that incorporate multiple defrost cycles. Therefore, DOE has determined that it is appropriate to grant an extension of the interim waiver to Samsung for an additional 180 days, or until March 12, 2012, or until the determination on the petition for waiver, whichever occurs first.

Issued in Washington, DC, on September 20, 2011.

Kathleen Hogan,

Deputy Assistant Secretary for Energy Efficiency, Office of Technology Development, Energy Efficiency and Renewable Energy.
