*Title of Proposal:* Section 8 Random Digit Dialing Fair Marketing Rent Surveys.

*OMB Approval Number:* 2528–0142.  
*Form Numbers:* None.

*Description of the Need for the Information and its Proposed Use:* HUD is evaluating alternative survey methodologies to collect gross rent data for specific areas in a relatively fast and accurate way that may be used to estimate and update Section 8 Fair Market Rents (FMRs) in areas where FMRs are believed to be incorrect and data from the American Community Survey is not available at the local level. Section 8(C)(1) of the United States

Housing Act of 1937 requires the Secretary to publish Fair Market Rents (FMRs) annually to be effective on October 1 of each year. FMRs are used for the Section 8 Rental Certificate Program (including space rentals by owners of manufactured homes under that program); the Moderate Rehabilitation Single Room Occupancy program; housing assisted under the Loan Management and Property Disposition programs; payment standards for the Rental Voucher program; and any other programs whose regulations specify their use. Random digit dialing (RDD) telephone surveys have been used for many years to adjust FMRs and will be evaluated for continued use. These surveys are based

on a sampling procedure that uses computers to select statistically random samples of telephone numbers to locate certain types of rental housing units for surveying. Cell phone surveys will be incorporated into this methodology and comprise roughly one-third of the sample. In addition HUD will collect survey data using web-based and mail systems. Initially, as the methodology is being refined, HUD will conduct surveys of up to 4 individual FMR areas in a year to test the accuracy of their FMRs. Up to 5 individual FMR area will be surveyed after the new methodology is determined.
