*Type of Review:* New.

*Title of Collection:* Charter School

Facilities National Questionnaire.

*OMB Control Number:* Pending.

*Agency Form Number(s):* N/A.

*Frequency of Responses:* Once.

*Affected Public:* State, Local or Tribal Government.

*Total Estimated Number of Annual Responses:* 369.

*Total Estimated Annual Burden Hours:* 1107.

*Abstract:* According to Part B section 5201 of the Elementary and Secondary Education Act, one of the established purposes of the Charter School Program office in the US Department of Education (ED) is "encouraging the States to provide support to charter schools for facilities financing in an amount more nearly commensurate to the amount the States have typically provided for traditional public schools". Currently, there is no national database, report, or analysis on the state of charter school facilities. This collection will help to understand the state of charter school facilities nationwide.

In the summer of 2007, the Colorado League of Charter Schools (the League) launched its Facilities 2010 Task Force,

which was established to address charter school facility needs. One of the initiatives of the Facilities 2010 Task Force was to develop a questionnaire that inventoried the facilities landscape in Colorado. This questionnaire has since been customized and administered in several additional states. ED is looking to use and administer this questionnaire in additional states and compile the data from all states into a national facilities database. ED has plans to conduct this survey in approximately three to four states per year. ED will use the information from the questionnaire to include in a national database that will provide comprehensive information about the facilities for charter schools and the issues that charter school face in trying to obtain adequate facilities. The data will then be used to develop a report and an analysis.
