**DEPARTMENT OF TRANSPORTATION**

**National Highway Traffic Safety Administration**

**49 CFR Part 535**

**RIN 2127–AK74**

**Greenhouse Gas Emissions Standards and Fuel Efficiency Standards for Medium- and Heavy-Duty Engines and Vehicles**

**AGENCY:** National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

**ACTION:** Correcting amendments.

**SUMMARY:** This document contains corrections to the final rule regulations (49 CFR 535.6), which were published in the Federal Register of Thursday, September 15, 2011 (76 FR 57106). The regulations established fuel efficiency standards for medium- and heavy-duty engines and vehicles, as prescribed under the Energy Independence and Security Act (49 U.S.C. 32902(k)(2)).

**DATES:** Effective Date: November 14, 2011.

**SUPPLEMENTARY INFORMATION:**

**Background**

NHTSA and EPA published in the Federal Register of September 15, 2011, final rules to establish a comprehensive Heavy-Duty National Program that will increase fuel efficiency and reduce greenhouse gas emissions for on-road heavy-duty vehicles, responding to the President’s directive on May 21, 2010, to take coordinated steps to produce a new generation of clean heavy-duty vehicles.

**Need for Correction**

As published, the final regulations inadvertently contained incorrect conversion factors for determining fuel consumption values that resulted from a typographical error. The correct value that should have been used in the document is a factor of 8,887 grams of CO₂ per gallon of gasoline for conversion of gasoline fuel. The preamble text is not affected.

**List of Subjects in 49 CFR Part 535**

Fuel efficiency.

Accordingly, 49 CFR part 535 is corrected by making the following correcting amendments:

**PART 535—MEDIUM- AND HEAVY-DUTY VEHICLES**

1. The authority citation for part 535 continues to read as follows:

2. Revise paragraphs (a)(4)(ii) and (c)(4)(ii) of §535.6 to read as follows:

**§535.6 Measurement and calculation procedures.**

(a) * * * *

(4) * * *

(ii) Calculate equivalent fuel consumption test group results as follows for spark-ignition vehicles and alternative fuel spark-ignition vehicles. CO₂ emissions test group result (grams per mile)/8,887 grams per gallon of gasoline fuel) x (10²) = Fuel consumption test group result (gallons per 100 mile).

(c) * * * *

(4) * * *

(ii) Calculate equivalent fuel consumption FCL value for spark-ignition engines and alternative fuel spark-ignition engines. CO₂ FCL value (grams per bhp-hr)/8,887 grams per gallon of gasoline fuel) x (10²) = Fuel consumption FCL value (gallons per 100 bhp-hr).

Issued: September 22, 2011.

Christopher J. Bonanti,
Associate Administrator for Rulemaking, National Highway Traffic Safety Administration, Department of Transportation.

[Docket No. 101126522–0640–02]

**RIN 0648–XA729**

**Pacific Cod by Non-American Fisheries Act Crab Vessels Harvesting Pacific Cod for Processing by the Inshore Component in the Western Regulatory Area of the Gulf of Alaska**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; closure.

**SUMMARY:** NMFS is prohibiting directed fishing for Pacific cod by non-American Fisheries Act (AFA) crab vessels that are subject to sideboard limits harvesting Pacific cod for processing by the inshore component in the Western Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the 2011 Pacific cod sideboard limit established for non-AFA crab vessels harvesting Pacific cod for processing by the inshore component in the Western Regulatory Area of the GOA.

**DATES:** Effective 1200 hrs, Alaska local time (A.l.t.), September 25, 2011, through 2400 hrs, A.l.t., December 31, 2011.

**FOR FURTHER INFORMATION CONTACT:** Josh Keaton, 907–586–7228.

The 2011 Pacific cod sideboard limit established for non-AFA crab vessels that are subject to sideboard limits harvesting Pacific cod for processing by the inshore component in the Western Regulatory Area of the GOA is 1,747 metric tons (mt), as established by the final 2011 and 2012 harvest specifications for groundfish of the GOA (75 FR 11111, March 1, 2011).
