

public access to the park. The preferred alternative for managing overnight camping and boating on Isle Royale focused on more efficiently utilizing existing camping facilities through the creation of a backcountry office and advanced permitting. The intent is to expand visitor services for trip planning and reduce campground crowding to improve social and resource conditions in campgrounds. This could result in a decrease in visitor access to the backcountry for camping during the busiest weeks of the season. The preferred alternative for managing day use was crafted with an intention to allow an increase in day use and concessions lodging throughout the visitor season. Day tours would be managed to concentrate the majority of day visitors close to developed and frontcountry areas of the park and minimize adverse impacts to wilderness character and other critical resources.

The preferred alternatives in combination also aimed to minimize or reduce the impacts of development in the park's wilderness. Although the preferred alternative for overnight use would add one additional campsite at North Desor campground and a few rustic cabins in Rock Harbor, and the preferred alternative for day use would add three to five miles of new trail, no new campgrounds would be constructed other than those approved in the park's General Management Plan, up to two fire towers would be removed, and campfire rings would be located only where resource conditions could tolerate the associated impacts.

The Plan/EIS involves analysis of current conditions in the park and the likely impacts of implementing each of the alternatives, considering impacts to visitor use and experiences, wilderness character, natural resources, cultural resources, socioeconomics, and NPS operations and administration. In general, each of the alternatives would be expected to result in both beneficial and adverse impacts to park resources and values.

BILLING CODE 4312-52-P

DEPARTMENT OF THE INTERIOR**Bureau of Reclamation****Status Report of Water Service, Repayment, and Other Water-Related Contract Actions**

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice.

SUMMARY: Notice is hereby given of contractual actions that have been proposed to the Bureau of Reclamation and are new, modified, discontinued, or completed since the last publication of this notice on July 27, 2011. From the date of this publication, future notices during this calendar year will be limited to new, modified, discontinued, or completed contract actions. This notice is one of a variety of means used to inform the public about proposed contractual actions for capital recovery and management of project resources and facilities consistent with section 9(f) of the Reclamation Project Act of 1939. Additional announcements of individual contract actions may be published in the **Federal Register** and in newspapers of general circulation in the areas determined by Reclamation to be affected by the proposed action.

ADDRESSES: The identity of the approving officer and other information pertaining to a specific contract proposal may be obtained by calling or writing the appropriate regional office at the address and telephone number given for each region in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Michelle Kelly, Water and

Environmental Resources Division, Bureau of Reclamation, P.O. Box 25007, Denver, Colorado 80225-0007; telephone 303-445-2888.

SUPPLEMENTARY INFORMATION: Consistent with section 9(f) of the Reclamation Project Act of 1939 and the rules and regulations published in 52 FR 11954, April 13, 1987 (43 CFR 426.22), Reclamation will publish notice of proposed or amendatory contract actions for any contract for the delivery of project water for authorized uses in newspapers of general circulation in the affected area at least 60 days prior to contract execution. Announcements may be in the form of news releases, legal notices, official letters, memorandums, or other forms of written material. Meetings, workshops, and/or hearings may also be used, as appropriate, to provide local publicity. The public participation procedures do not apply to proposed contracts for the sale of surplus or interim irrigation water for a term of 1 year or less. Either of the contracting parties may invite the public to observe contract proceedings. All public participation procedures will be coordinated with those involved in complying with the National Environmental Policy Act. Pursuant to the "Final Revised Public Participation Procedures" for water resource-related contract negotiations, published in 47 FR 7763, February 22, 1982, a tabulation is provided of all proposed contractual actions in each of the five Reclamation regions. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary of the Interior, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the regional directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved.

Public participation in and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

1. Only persons authorized to act on behalf of the contracting entities may negotiate the terms and conditions of a specific contract proposal.

2. Advance notice of meetings or hearings will be furnished to those parties that have made a timely written request for such notice to the appropriate regional or project office of Reclamation.

3. Written correspondence regarding proposed contracts may be made available to the general public pursuant to the terms and procedures of the
