3. A limited reversionary provision stating that the title shall revert to the United States upon a finding, after notice and opportunity for a hearing, that the patentee has not substantially developed the lands in accordance with the approved plan of development on or before the date 5 years after the date of conveyance. No portion of the land shall under any circumstance revert to the United States if any such portion has been used for solid waste disposal or for any other purpose which may result in the disposal, placement, or release of any hazardous substance.

On September 29, 2011, the land described above is segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for conveyance under the R&PP Act and leasing under the mineral leasing laws.
