[Project No. 2479-011-CA]

Pacific Gas and Electric Company

Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for a new license for the French Meadows transmission line project and has prepared an Environmental Assessment (EA). The project is located within the Middle Fork American River Drainage in Placer County, California, and occupies 32.78 acres of U.S. Forest Service land managed by the Eldorado and Tahoe National Forests. The combined length of the transmission lines on National Forest land is 6.58 miles, 6.42 miles on the Eldorado National Forest and 0.16 mile on the Tahoe National Forest. Approximately 6.69 miles on the French Meadows transmission line section of the project are located on private land.

The EA contains staff's analysis of the potential environmental effects of the project and alternatives and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. [Docket No. TX11-2-000]

City of College Station, TX; Notice of Filing

Take notice that on September 27, 2011, pursuant to sections 210, 211, and 212 of the Federal Power Act, 16 USC 824i, 824j, and 824k, Part 36 of the Federal Energy Regulatory Commission's (Commission) Regulations, 18CFR 36.1, the City of College Station, TX filed an application requesting that the Commission direct (1) Entergy Texas, Inc. (ETI) to provide an interconnection located between ETI's College Station Junction and College Station's Switch Station to be used only during declared emergencies; and (2) direct ETI, in event of such declared emergencies, to provide transmission service for power flows within the transmission grid administered by the independent service operator, the Electric Reliability Council of Texas, Inc., certified by the Public Utility Commission of Texas to perform the functions set forth in Section 39.151(a) of the Texas Public Utility Regulatory Act.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the

comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.
