

are appointed in the same manner as are members to the parent committee. The goal of the Memorandum is to restrict the undue influence of lobbyists on Federal government through their membership on boards and commissions, which would include subcommittees and other bodies regardless of whether those positions require formal appointment.

Q10: Does this policy also restrict the participation of lobbyists as witnesses or experts who appear before boards and commissions or submit advice or materials to them?

A10: No, lobbyists may still appear before or otherwise communicate with a board or commission to provide testimony, information, or input in the same manner as non-lobbyists who are not members of or appointees to the board, commission, or any of its subgroups, to the extent permitted by law and regulation. The purpose of the policy is to prevent lobbyists from being in privileged positions in government. It is not designed to prevent lobbyists or others from petitioning their government. When lobbyists do testify, boards and commissions should make reasonable efforts to ensure that they hear a balance of perspectives and are not gathering information or advice exclusively from registered lobbyists.

Q11: What should an agency do if it appoints to a board or commission an individual who is not a federally registered lobbyist at the time of appointment, but who, after appointment, becomes a federally registered lobbyist?

A11: Agencies should make clear to all board and commission members, whether appointed as representatives or Special Government Employees, that their conduct of activities that would require them to be federally registered lobbyists after appointment would necessitate their resignation or removal from membership on boards or commissions. The appointing officers or their delegates shall ensure, at least annually, that board or commission members are not federally registered lobbyists and, upon reappointment of the members, either shall require each member to certify that he or she is not a federally registered lobbyist or shall check the Federal lobbyist databases to confirm that each member has not registered as a lobbyist since appointment. If an agency finds that, following appointment to a board or commission, a member subsequently has become a federally registered lobbyist or has engaged in activities that would require registration, the agency shall request the resignation of the member.

Q12: Will there be any waivers available for circumstances in which a federally registered lobbyist possesses unique or exceptional value to a board or commission?

A12: The policy makes no provisions for waivers, and waivers will not be permitted under this policy.

SUPPLEMENTARY INFORMATION: Request for Clearance for Additional Survey of Master Teaching Fellows (MTFs) as Part of the Evaluation of the National Science Foundation's (NSF) Robert Noyce Teacher Scholarship (Noyce) Program.

Title of Collection: Evaluation of the Robert Noyce Teacher Scholarship Program.

OMB Control No.: 3145-0217.

Expiration Date of Approval: June 30, 2014.

Abstract: The National Science Foundation (NSF) received clearance for the evaluation of the Robert Noyce Teacher Scholarship Program on June 13, 2011 through OMB Control Number: 3145-0217. This included collecting primary data via surveys and interviews with Principal Investigators, Faculty, Noyce Recipients, and K-12 Principals.

The Noyce program operates within NSF's Division of Undergraduate Education, and bridges the higher education and the K-12 system. The Noyce Program encourages talented

science, technology, engineering, and mathematics (STEM) majors and professionals to become K–12 mathematics and science teachers. The program provides funds to institutions of higher education (IHEs) to support scholarships, stipends, and academic programs for undergraduate STEM majors and post-baccalaureate STEM students who commit to teaching in high-need K–12 school districts as a condition of receiving financial support. Additionally, the program provides support to undergraduate freshmen and sophomores who serve as summer interns in STEM educational settings as an introduction to a possible career in teaching.

Under the NSF Teaching Fellowship and Master Teaching Fellowship track, the Noyce program supports STEM professionals who enroll as NSF Teaching Fellows (TFs) in master's degree programs leading to teacher certification by providing academic courses, professional development, and salary supplements as the Teaching Fellows fulfill a four-year teaching commitment in a high need school district. This track also supports exemplary math and science teachers, who have master's degrees, to become Master Teaching Fellows (MTFs) in high need school districts by providing professional development and salary supplements.

Since TFs are supported by the Noyce program in preparing for teacher certification and their early years of teaching, they will take the same survey that will be given to other recipients previously approved by OMB.

NSF has developed a new survey as part of the overall evaluation for the MTFs. The MTF survey will be similar to the other recipient surveys for recipients who are teaching. However, it will focus more on the leadership activities expected of these more experienced teachers. Since MTFs were not supported by the Noyce Program in preparing for certification or their early teaching years, there are no questions in this survey about their teacher preparation program or support during early teaching.

Respondents: Individuals, Federal Government, State, Local or Tribal Government and not-for-profit institutions.

Estimated Number of Respondents: 104.

Burden on the Public: 52 hours.

Dated: September 30, 2011.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.
