

- 2012–2013 Budget Update and American Recovery and Reinvestment Act Close-Out.

- Waste Disposition Update.

- Update on DOE Order 435.1: Radioactive Waste Management.

- EM SSAB Chairs' Roundtable Discussion: Product Development.

Public Participation: The teleconference is open to the public. Members of the public who would like to join the proceedings by telephone should contact Elizabeth Schmitt, Public Participation Coordinator, at least 72 hours prior to the meeting to register and obtain call-in information. Ms. Schmitt can be reached via e-mail at elizabeth.schmitt@em.doe.gov, or phone at (202) 586–1135.

Written statements may be filed with the Board either before or after the meeting. Individuals who wish to make oral statements pertaining to the agenda during the teleconference should contact Catherine Alexander at the address or telephone number listed above. Requests must be received five days prior to the teleconference. The Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments will be provided a maximum of five minutes, or as the agenda allows, to present comments.

Minutes: Minutes will be available by writing or calling Catherine Alexander at the address or phone number listed above. Minutes will also be available at the following Web site: <http://www.em.doe.gov/stakepages/ssabchairs.aspx>.

Issued at Washington, DC, on September 30, 2011.

LaTanya R. Butler,

Acting Deputy Committee Management Officer.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL11–64–000; Docket No. ER11–3657–000]

Mississippi Delta Energy Agency, Clarksdale Public Utilities Commission, Public Service Commission of Yazoo City, Arkansas Electric Cooperative Corporation, South Mississippi Electric Power Association v. Entergy Services, Inc.; Notice of Complaint

Take notice that on September 26, 2009, pursuant to sections 206, 306, and 309 of the Federal Power Act, 16 U.S.C. 824e, 825e, and 825h and 18 CFR 385.206 and 385.212 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedures, and the applicable Tariff on file with the Commission, Mississippi Delta Energy Agency, Clarksdale Public Utilities Commission of the City of Clarksdale, Mississippi, Public Service Commission of Yazoo City, Mississippi, Arkansas Electric Cooperative Corporation, and South Mississippi Electric Power Association (Complainants) filed a complaint against Entergy Services, Inc. (Respondent), alleging that the Respondent has not properly implemented the rate redetermination (Update) procedures contained in its Tariff, therefore, the 2011 Update filed by the Respondent in Docket No. ER11–3657–000 would impose rates and charges that are contrary to the Tariff on file with the Commission and are unjust and unreasonable in violation of the Federal Power Act.

The Complainant certifies that copies of the complaint were served on the contacts for Entergy Services, Inc. as listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Comment Date: 5 p.m. Eastern Time on October 19, 2011.

Dated: September 29, 2011.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF11–6–000]

Wabash Gas Storage, LLC; Notice of Intent To Prepare an Environmental Assessment for the Planned Wabash Gas Storage Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meeting

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Wabash Gas Storage Project (Project) involving construction and operation of facilities proposed by Wabash Gas Storage, LLC (Wabash) near Paris in Edgar County, Illinois. This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine what issues need to be evaluated in the EA. Please note that the

scoping period will close on October 31, 2011.

Comments may be submitted in written form or verbally. Further details on how to submit written comments are provided in the Public Participation section of this notice. In lieu of or in addition to sending written comments, the Commission invites you to attend the public scoping meeting scheduled as follows:

FERC Public Scoping Meeting,
Wabash Gas Storage Project, 6 p.m.—
Thursday, October 20, 2011,
Knights of Columbus Meeting Hall,
614 North Main Street, Paris, IL 61944,
(217) 465-1085.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives are asked to notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, you may be contacted by a Wabash representative about the acquisition of an easement to construct, operate, and maintain the planned pipeline and storage facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations for the pipeline right-of-way and storage lease fail to produce an agreement, Wabash could initiate condemnation proceedings where compensation would be determined in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (<http://www.ferc.gov>). This fact sheet addresses a number of typically-asked questions, including the use of eminent domain and how to participate in the Commission's proceedings.

Summary of the Planned Project

Wabash plans to develop a previously abandoned aquifer natural gas storage facility in Edgar County, Illinois. The Project involves the redevelopment of the Elbridge and Nevins subsurface gas storage fields in Edgar County, Illinois.

The Elbridge surface facilities include the Central Facility which would be comprised of:

- five gas storage injection and withdrawal wells;
- a 14,000 horsepower compressor station;
- valving, dehydration and separation equipment;

- one water disposal injection well; and
- one 50,000 barrel (bbl) produced water pond.

The Nevins surface facilities include the Nevins Facility which would be comprised of:

- three gas storage injection and withdrawal wells;
- metering, separation equipment, and flow control equipment;
- one water disposal injection well; and
- one 10,000 bbl produced water pond.

In addition, the following facilities would be constructed to support the Project:

- three observation wells located around the perimeter of each storage field;
- two plugged and abandoned wells, located at the apex of each field, that would be re-entered and converted to observation wells;
- a 1.4 mile, 16-inch-diameter bi-directional delivery pipeline that would interconnect with the existing Midwestern Paris Compressor Stations;
- a 4.5 mile, 20-inch-diameter bi-directional pipeline, and a 6-inch-diameter produced water pipeline that would connect the Nevins Facility and the Central Facility; and
- one meter station and a launcher/regulation station, located immediately adjacent to the Paris Compressor Station property.

The storage facility would have a working gas capacity of 14 billion cubic feet with injection and withdrawal rates of 200,000 million British thermal units per day.

The general location of the project facilities is shown in Appendix 1.¹

Land Requirements for Construction

For the aboveground facilities, approximately 31 acres would be disturbed. Following construction activities, approximately 13 acres would be permanently maintained for the Project operations. Approximately 18 would be acres necessary for construction would be restored and allowed to revert to former uses.

Construction of the pipelines would disturb approximately 68 acres during construction. Of that, approximately 34 acres would be allowed to revert to

¹ The appendices referenced in this notice are not being printed in the **Federal Register**. Copies of appendices were sent to all those receiving this notice in the mail and are available at <http://www.ferc.gov> using the link called "eLibrary" or from the Commission's Public Reference Room, 888 First Street, NE., Washington, DC 20426, or call (202) 502-8371. For instructions on connecting to eLibrary, refer to the last page of this notice.

previous land use following construction activities and the remaining 34 acres would be permanently maintained.

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us² to discover and address concerns the public may have about proposals. This process is referred to as scoping. The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this notice, the Commission requests public comments on the scope of the issues to address in the EA. All comments received will be considered during the preparation of the EA.

In the EA we will discuss impacts that could occur as a result of the construction and operation of the planned project under these general headings:

- geology and soils;
- water resources, and fisheries;
- vegetation and wildlife;
- cultural resources;
- socioeconomics;
- land use;
- air quality and noise; and
- reliability and public safety.

We will also evaluate possible alternatives to the planned project or portions of the project, and make recommendations on how to lessen or avoid impacts on the various resource areas.

Although no formal application has been filed, we have already initiated our NEPA review under the Commission's pre-filing process. The purpose of the pre-filing process is to encourage early involvement of interested stakeholders and to identify and resolve issues before an application is filed with the FERC. As part of our pre-filing review, we have begun to contact some federal and state agencies to discuss their involvement in the scoping process and the preparation of the EA.

Our independent analysis of the issues will be presented in the EA. The EA will be placed in the public record and, depending on the comments received during the scoping process, may be published and distributed to the public. A comment period will be allotted if the EA is published for review. We will consider all comments

² "We," "us," and "our" refer to the environmental staff of the Commission's Office of Energy Projects.

on the EA before we make our recommendations to the Commission. To ensure your comments are considered, please carefully follow the instructions in the Public Participation section beginning on page 5.

With this notice, we are asking agencies with jurisdiction and/or special expertise with respect to environmental issues to formally cooperate with us in the preparation of the EA. These agencies may choose to participate once they have evaluated the proposal relative to their responsibilities. Agencies that would like to request cooperating agency status should follow the instructions for filing comments provided under the Public Participation section of this notice.

Consultations Under Section 106 of the National Historic Preservation Act

In accordance with the Advisory Council on Historic Preservation's implementing regulations for section 106 of the National Historic Preservation Act, we are using this notice to initiate consultation with the Illinois State Historic Preservation Office (SHPO), and to solicit their views and those of other government agencies, interested Indian tribes, and the public on the project's potential effects on historic properties.³ We will define the project-specific Area of Potential Effects (APE) in consultation with the SHPO as the project is further developed. On natural gas facility projects, the APE at a minimum encompasses all areas subject to ground disturbance. Our EA for this project will document our findings on the impacts on historic properties and summarize the status of consultations under section 106.

Currently Identified Environmental Issues

We have already identified several issues that we think deserve attention based on a preliminary review of the planned facilities and the environmental information provided by Wabash. This preliminary list of issues may be changed based on your comments and our analysis.

- Air Quality
- Noise and vibration impacts
- Socioeconomic impacts
- Geology and hydrogeology
- Wetlands and waterbodies
- Threatened and endangered species
- Public safety

³ The Advisory Council on Historic Preservation's regulations are at Title 36, Code of Federal Regulations, part 800. Historic properties are defined in those regulations as any prehistoric or historic district, site, building, structure, or object included in or eligible for inclusion in the National Register for Historic Places.

Public Participation

You can make a difference by providing us with your specific comments or concerns about the project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that your comments are timely and properly recorded, please send your comments so that they will be received in Washington, DC on or before October 31, 2011.

For your convenience, there are three methods you can use to submit your comments to the Commission. In all instances, please reference the project docket number PF11-6-000 with your submission. The Commission encourages electronic filing of comments and has expert eFiling staff available to assist you at (202) 502-8258 or efiling@ferc.gov.

(1) You may file your comments electronically by using the *eComment* feature, which is located on the Commission's Web site at www.ferc.gov under the link to *Documents and Filings*. An *eComment* is an easy method for interested persons to submit brief, text-only comments on a project;

(2) You may file your comments electronically by using the *eFiling* feature, which is located on the Commission's Web site at www.ferc.gov under the link to *Documents and Filings*. With *eFiling*, you can provide comments in a variety of formats by attaching them as a file with your submission. New *eFiling* users must first create an account by clicking on "*eRegister*." You will be asked to select the type of filing you are making. A comment on a particular project is considered a "Comment on a Filing"; or

(3) You may mail a paper copy of your comments to the Commission at the following address:

Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Room 1A, Washington, DC 20426.

Environmental Mailing List

The environmental mailing list includes federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Indian tribes; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for

project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the project. We will update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the planned project.

If the EA is published for distribution, copies will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (Appendix 2).

Becoming an Intervenor

Once Wabash files its application with the Commission, you may want to become an "intervenor" which is an official party to the Commission's proceeding. Intervenors play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are included in the User's Guide under the "e-filing" link on the Commission's Web site. Please note that the Commission will not accept requests for intervenor status at this time. You must wait until a formal application for the project is filed with the Commission.

Additional Information

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site (<http://www.ferc.gov>) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number, excluding the last three digits in the Docket Number field (*i.e.*, PF11-6). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings

by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <http://www.ferc.gov/esubscribenow.htm>.

Finally, public meetings or site visits will be posted on the Commission's calendar located at <http://www.ferc.gov/EventCalendar/EventsList.aspx> along with other related information.

Dated: September 29, 2011.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PR11-130-000]

Southcross Alabama Pipeline LLC; Notice of Filing

Take notice that on September 28, 2011, Southcross Alabama Pipeline LLC (SAGS) submitted a revised Statement of Operating Conditions for services provided under Section 311 of the Natural Gas Policy Act of 1978 ("NGPA"). SAGS's filing proposes a name change from Enterprise Alabama Intrastate, LLC to Southcross Alabama Pipeline LLC, as more fully detailed in the petition.

Any person desiring to participate in this rate proceeding must file a motion to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the

Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5 p.m. Eastern Time on Tuesday, October 11, 2011.

Dated: September 29, 2011.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 459-309]

AmerenUE; Notice of Application for Amendment of License, and Soliciting Comments, Motions To Intervene, and Protests

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

- a. *Application Type:* Non-project use of project lands and waters.
- b. *Project No:* 459-309.
- c. *Date Filed:* July 6, 2011.
- d. *Applicant:* Union Electric Company, dba AmerenUE.
- e. *Name of Project:* Osage Hydroelectric Project.
- f. *Location:* The proposed non-project use would be located in McCoy Branch Cove, Lake of the Ozarks in Camden County, Missouri.
- g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791a-825r
- h. *Applicant Contact:* Mr. Joe Daly, AmerenUE, 1901 Chouteau Avenue St. Louis, MO 63166-6149. 573-365-9207.
- i. *FERC Contact:* Bill Doran at (202) 502-6795, or email: william.doran@ferc.gov.
- j. *Deadline for filing comments, motions to intervene, and protest:* October 31, 2011.

All documents may be filed electronically via the Internet. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web

site at <http://www.ferc.gov/docs-filing/efiling.asp>. If unable to be filed electronically, documents may be paper-filed. To paper-file, an original and seven copies should be mailed to: Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. Please include the project number (P-459-309) on any comments, motions, or recommendations filed.

k. *Description of Request:* AmerenUE, requests Commission authorization to permit the Monarch Cove Development to expand an existing marina located within McCoy Branch Cove. Monarch Cove Development requests permission to construct two new docks, retain existing modifications made to three existing previously permitted docks, and retain one existing, but unpermitted, dock with proposed modifications. The proposal would provide an additional 110 boat slips and 32 personal watercraft (PWC) lifts to the facility. The expanded facility would represent a total of 14 docks, 232 boat slips, 60 PWC lifts and 28 double PWC slips. No fueling facilities or dredging activity is associated with the proposal.

l. *Locations of the Application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426, or by calling (202) 502-8371. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3676 or e-mail FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and
