

along each of the proposed transmission alignments.

- Temporary work areas associated with construction activities, material storage, and staging.

The proposed transmission project is in conformance with the 1998 Las Vegas Resource Management Plan and does not require a land use plan amendment.

The purpose of the public scoping process is to ascertain the relevant issues that will influence the scope of the environmental analysis, including alternatives, and guide the process for developing the EIS. At present, the BLM has identified the following preliminary issues: threatened and endangered species, visual resource impacts (including visual effects to the Old Spanish Trail National Historic Trail), recreation impacts, socioeconomic effects, and connected and cumulative actions.

The BLM will utilize and coordinate the NEPA commenting process to satisfy the public involvement process for Section 106 of the National Historic Preservation Act (NHPA) (16 U.S.C. 470f) as provided for in 36 CFR 800.2(d)(3). Native American tribal consultations will be conducted in accordance with policy, and tribal concerns will be given due consideration, including impacts on Indian trust assets. Federal, State, and local agencies, as well as individuals, organizations, or tribes that may be interested or affected by the BLM's decision on this project are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate as a cooperating agency.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Mary Jo Rugwell,

District Manager, Southern Nevada District Office.
