of witnesses and the production of all books, papers, and documents relating to any matter under consideration or investigation.” 25 U.S.C. 2715. Another commentator stated that this issue is already adequately addressed by regulation. Another comment stated that this would be an expansion of the NIGC's authority and would constitute an unwarranted intrusion into a Tribe's ability to self-govern.

The Commission agrees with the comments that an amendment is unnecessary because IGRA and NIGC regulations already provide broad authority to access off-site records, including sites maintained and owned by third parties. The amendment contained in the preliminary draft of this regulation did not change this already comprehensive subpoena authority. The proposed revision is thus unnecessary and has not been included in this proposed rule.

B. Investigation Completion Letter

During consultation, the Commission heard that the regulations should include a process for notifying a Tribe that an investigation has been concluded. Tribal representatives explained that in some instances they were never notified of the results of investigations opened by the NIGC years ago. The lack of any response left Tribes in a situation where when asked, the Tribe had to indicate that they were under investigation. The discussion draft attempted to formalize NIGC's informal process of advising a Tribe, through NIGC's authorized representative, after an investigation was terminated. All comments received on the discussion draft were supportive of the concept. However, several comments indicated that such a letter should be mandatory and not discretionary. Because each investigation and Tribe are different, the Commission believes it is important to provide the NIGC with the discretion to evaluate each investigation on a case-by-case basis and to decide to issue a letter based on the facts and circumstances in that particular investigation. The proposed rule retains that discretion. Additionally, the discussion draft titled this section “Investigation Closure Letter”, however, commentators recommended changing the title to “Investigation Completion Letter” stating that “closure” is a term used for closure of a gaming operation. The Commission made this recommended change in this proposed rule.
