

Turkey is the most important process involved in producing the finished product. Therefore, we find in accordance with 19 CFR § 102.21(c)(4), the country of origin of the surgical face mask with a protective eye-shield for purposes of government procurement is Turkey.

HOLDING:

Based on the facts and analysis set forth above, the finished surgical face mask with a protective eye-shield is a product of Turkey for the purpose of government procurement.

Notice of this final determination will be given in the Federal Register, as required by 19 CFR § 177.29. Any party-at-interest other than the party which requested the final determination may request, pursuant to 19 CFR § 177.31, that CBP reexamine the matter anew and issue a new final determination. Any party-at-interest may, within 30 days after publication of the Federal Register notice referenced above, seek judicial review of this final determination before the Court of International Trade.

Sincerely,
Sandra L. Bell,
Executive Director, Office of Regulations and Rulings, Office of International Trade.

BILLING CODE 9111-14-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5477-N-41a]

Federal Property Suitable as Facilities to Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

FOR FURTHER INFORMATION CONTACT: Juanita Perry, Department of Housing and Urban Development, 451 Seventh Street, SW., Room 7262, Washington, DC 20410; telephone (202) 708-1234; TTY number for the hearing- and speech-impaired (202) 708-2565, (these telephone numbers are not toll-free), or call the toll-free Title V information line at 800-927-7588.

SUPPLEMENTARY INFORMATION: In accordance with the December 12, 1988 court order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.), HUD publishes a Notice, on a weekly basis, identifying unutilized, underutilized, excess and surplus Federal buildings and real property that HUD has reviewed for suitability for use to assist the homeless. Today's Notice is for the

purpose of announcing that no additional properties have been determined suitable or unsuitable this week.

Dated: October 6, 2011.

Mark R. Johnston,
Deputy Assistant Secretary for Special Needs.

BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[FWS-R3-ES-2011-N202; 30120-1112-0000-F6]

Endangered and Threatened Wildlife and Plants; Incidental Take Permit Application; Proposed Low-Effect Habitat Conservation Plan and Associated Documents; Duke Energy Corp., Gibson County, IN

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, invite the public to comment on the following application to conduct certain activities with endangered species. With some exceptions, the Endangered Species Act (Act) prohibits activities with endangered and threatened species unless a Federal permit allows such activity. The Act requires that we invite public comment before issuing these permits.

DATES: We must receive any written comments on or before November 14, 2011.

ADDRESSES: Send written comments by U.S. Mail to the Regional Director, Attn: Lisa Mandell, U.S. Fish and Wildlife Service, Ecological Services, 5600 American Blvd., West, Suite 990, Bloomington, MN 55437-1458; or by electronic mail to permitsR3ES@fws.gov.

FOR FURTHER INFORMATION CONTACT: Lisa Mandell, (612) 713-5343.

SUPPLEMENTARY INFORMATION: We invite public comment on the following permit application for certain activities with endangered species authorized by section 10(a)(2)(A) of the Act (16 U.S.C. 1531 *et seq.*) and our regulations governing the taking of endangered species in the Code of Federal Regulations (CFR) at 50 CFR 17. Submit your written data, comments, or request for a copy of the complete application and Habitat Conservation Plan (HCP) to the address shown in **ADDRESSES**.

Background

In 1986, a single pair of endangered Interior least terns (*Sterna antillarum*) nested at Cinergy Corporation's (Cinergy) Gibson Generating Station in Gibson County, Indiana. Since that time, the least tern colony at the facility has grown. During the 1990s, Cinergy worked cooperatively with the Indiana Department of Natural Resources (IDNR) and the Service to maintain favorable conditions for successful tern production at the Gibson Generating Station. Between 1986 and 1999, the most terns recorded in a single year (1998) included an estimated 85 adult terns, 63 nests, and 72 fledged young.

In the late 1990s, Cinergy worked cooperatively with the IDNR and the Service to develop a Habitat Conservation Plan (HCP) regarding continued operation of the facility, and, in late 1999, the Service issued an Incidental Take Permit (ITP) to Cinergy. In 2005, the ITP was renewed. Management of the facility under the HCP has promoted the continued growth of the tern colony. In 2010, an estimated 150 adults, 110 nests, and 165 fledged young were recorded. In addition to the growth in numbers, the tern colony has expanded to areas beyond the original location along a splitter dike adjacent to a cooling pond. Nesting has now been documented on the splitter dike, adjacent to ash ponds, a coal combustion waste landfill, construction areas and station access roads. The expansion of the tern nesting area presents management challenges for the generating station and associated facilities.

Current Proposal

Duke Power Company purchased and merged with Cinergy Corp. to form Duke Energy Corporation (Duke) in 2006. Duke has continued to operate the facility in accordance with the HCP and the ITP. Duke has applied to the Service for renewal of its ITP number TE016724. An updated HCP accompanies this renewal application. The HCP describes management activities in and around the Gibson Generating Station, including water management, predator control, and minimization of human disturbance due to recreational use.

Proactive management over the past 25 years has resulted in an increase in the Interior least tern population nesting at Gibson Generating Station and surrounding areas. However, no incidental take of least terns has occurred during that time. Actions that may result in take include human disturbance during management and operations, including foot traffic,
