Birmingham Ross Bridge Golf Resort and Spa, in the Conference Center Ballroom, 4000 Grand Ave., Hoover, Alabama 35226, phone 1–800–949–4444.

Additional public meetings will be held, to the extent possible, in conjunction with other safety and health events. MSHA will announce these meetings in the Federal Register and post them on the Agency’s Web site.

III. MSHA and OSHA Regulatory Initiatives

A. MSHA Rulemakings

MSHA believes that operators with effective safety and health management programs would identify and correct hazards more quickly, resulting in fewer accidents, injuries, and illnesses. In the past year, MSHA published two proposed rules that are complementary to the Agency’s initiative to develop safety and health management programs for mines. In December 2010, MSHA published a proposed rule addressing Examinations of Work Areas in Underground Coal Mines (75 FR 81165). This proposed rule is a critical element in the Secretary of Labor’s “Plan, Prevent, and Protect” strategy and an important part of an effective safety and health management program for underground coal mines.

In February 2011, MSHA published a proposed rule addressing Pattern of Violations (76 FR 5719). The proposed rule would revise the Agency’s existing regulation for pattern of violations (POV). Congress included the POV provision in the Mine Act so that operators would manage safety and health conditions at mines and find and fix the root causes of significant and substantial violations to protect the safety and health of miners.

B. OSHA’s Injury and Illness Prevention Programs

The Occupational Safety and Health Administration (OSHA) has announced rulemaking on Injury and Illness Prevention Programs (I2P2) which is similar to this regulatory initiative. In 2010, the OSHA held five stakeholder meetings on I2P2 soliciting information about safety and health management programs for the general industry.

IV. Background and Request for Comments

MSHA has reviewed a number of guidelines for safety and health management programs and noted that the components of effective safety and health management programs generally include:

- Management Commitment.
- Worker Involvement.
- Hazard Identification, including workplace inspections for violations of mandatory health and safety standards.
- Hazard Prevention and Control.
- Safety and Health Training.
- Program Evaluation.

MSHA held three public meetings in October 2010, gathering information and comments from the safety and health community about effective, comprehensive safety and health management programs (75 FR 54804). Presenters included representatives from academia, safety and health professionals, industry and worker organizations (including mining), and government agencies that provided information on best practices for safety and health programs.

MSHA is now interested in receiving information about safety and health management programs developed and implemented during the past five years, particularly those implemented in the last year.

MSHA is interested in statistical results, lessons learned, and new and innovative approaches from different sectors of the mining industry and from small mines.

To supplement the information the Agency has already received, MSHA will hold additional meetings. MSHA is interested in safety and health management programs that have shown results in:

- Reduced injury and illnesses.
- Increased safety and health results.
- Improved conditions in certain areas, (e.g. haulage, roof and rib, combustible materials, health hazards).
- Improved compliance.
- Improved communication.
- Increased productivity.
- Increased and improved worker and management involvement in the development of safety and health programs including training; and
- Increased morale.

The Agency is interested in statistical results from companies and organizations that have programs that are effective and measurable. MSHA is also interested in safety and health management programs from industries other than mining, and safety and health management programs in other countries.

The Agency is interested in receiving comments on all aspects of safety and health management programs. The meetings will provide MSHA with current information and views from a wide range of interests.
identification such as a driver’s license to enter into the NASA Goddard Space Flight Center, and must state that they are attending the NASA Advisory Council meeting in Building 1. All U.S. citizens desiring to attend the NASA Advisory Council Meeting at the Goddard Space Flight Center (GSFC) must provide their full name, company affiliation (if applicable), to the GSFC Protective Services Division no later than the close of business on October 28, 2011.

All non-U.S. citizens must submit their name, current address, citizenship, company affiliation (if applicable) to include address, telephone number, and their title, place of birth, date of birth, U.S. visa information to include type, number, and expiration date, U.S. Social Security Number (if applicable), Permanent Resident card number and expiration date (if applicable), place and date of entry into the U.S., and passport information to include country of issue, number, and expiration date to the GSFC Security Office no later than the close of business on October 19, 2011.

If the above information is not received by the noted dates, attendees should expect a minimum delay of two (2) hours. All visitors to this meeting will report to the Main Gate where they will be processed through security prior to entering GSFC. Please provide the appropriate data, via fax 301–286–1230, noting at the top of the page “Public Admission to the NASA Advisory Council Meeting at GSFC.” For security questions, please contact Pam Starling by phone at 301–286–6865, or by e-mail at pamela.a.starling@nasa.gov, or alternate Debbie Brasel by phone at 301–286–6876, or by e-mail at deborah.a.brasel@nasa.gov.

Dated October 7, 2011.

P. Diane Rausch,
Advisory Committee Management Officer, National Aeronautics and Space Administration.

BILLING CODE 7510–13–P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 11–096]

NASA Advisory Council; Audit, Finance and Analysis Committee; Meeting.

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92–463, as amended, the National Aeronautics and Space Administration announces a meeting of the Audit, Finance and Analysis Committee of the NASA Advisory Council.

DATES: Tuesday, November 1, 2011, 2 p.m.–5:15 p.m., Local Time.

Wednesday, November 2, 2011, 9 a.m.–9:55 a.m., Local Time.

ADDRESSES: Goddard Space Flight Center (GSFC). Building 1, Room E100H, Greenbelt Road, Greenbelt, MD 20771–0001 (Note that visitors will first need to go to the GSFC Main Gate to gain access.)

FOR FURTHER INFORMATION CONTACT: Ms. Charlene Williams, Office of the Chief Financial Officer, National Aeronautics and Space Administration Headquarters, Washington, DC, 20546, Phone: 202–358–2183.

SUPPLEMENTARY INFORMATION: The agenda for the meeting includes briefings on the following topics:

• Earned Value Management
• Open.gov Initiatives
• NASA Infrastructure
• Utilization of Space Assets
• Space Shuttle Property

The meeting will be open to the public up to the seating capacity of the room. Visitors will need to show valid picture identification such as a driver’s license to enter into the NASA Goddard Space Flight Center, and must state that they are attending the NASA Advisory Council (NAC) Audit, Finance, and Analysis Committee meeting in Building 1. All U.S. citizens desiring to attend the NAC Audit, Finance, and Analysis Committee Meeting at the Goddard Space Flight Center (GSFC) must provide their full name, company affiliation (if applicable), to the GSFC Protective Services Division no later than the close of business on October 28, 2011. All non-U.S. citizens must fax a copy of their passport, and print or type their name, current address, citizenship, company affiliation (if applicable) to include address, telephone number, and their title, place of birth, date of birth, U.S. visa information to include type, number, and expiration date, U.S. Social Security Number (if applicable), to the GSFC Security Office no later than the close of business on October 19, 2011.

If the above information is not received by the noted dates, attendees should expect a minimum delay of two (2) hours. All visitors to this meeting will report to the GSFC Main Gate where they will be processed through security prior to entering GSFC. Please provide the appropriate data, via fax 301–286–1230, noting at the top of the page “Public Admission to the NASA Advisory Council Meeting at GSFC”.

For security questions, please call Pam Starling at 301–286–6865 or Pamela.a.starling@nasa.gov or Alternate: Debbie Brasel at 301–286–6876 or Deborah.a.brasel@nasa.gov.

October 12, 2011.

P. Diane Rausch,
Advisory Committee Management Officer, National Aeronautics and Space Administration.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (11–091)]

Privacy Act of 1974; Privacy Act System of Records Appendices

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Revisions of NASA Appendices to Privacy Act System of Records.

SUMMARY: Notice is hereby given that NASA is amending the standard appendices that it regularly publishes with the Agency’s systems of records under the Privacy Act of 1974. This notice publishes those amendments as set forth below under the caption.

SUPPLEMENTARY INFORMATION: In this notice, NASA (1) names an additional location, the NASA Shared Services Center, and (2) adds two new routine uses in Appendix B, the Agency’s Standard Routine Uses, to ensure the Agency’s ability to disclose records from systems to individuals engaged by NASA in performance of its activities, as well as to Members of Congress or their staffs seeing records on behalf of subjects of the records.

DATES: Submit comments on or before 30 calendar days from the date of this publication. These changes will be effective as proposed at the end of the comment period unless comments are received which would require a contrary determination.

ADDRESSES: Patti F. Stockman, Privacy Act Officer, Office of the Chief Information Officer, National Aeronautics and Space Administration Headquarters, Washington, DC 20546–0001, (202) 358–4787, NASA-PAOFFicer@nasa.gov.
