the availability of and public comment period for the Rosemont Copper Project DEIS, which documents and publicly discloses the environmental effects of proposed construction, operation and concurrent reclamation, and closure of an open-pit mine on National Forest System land. The proposed mining project would be located on 995 acres of private land and 3,670 acres of National Forest System land about 30 miles southeast of Tucson, Arizona, within Townships 18 and 19, Ranges 15 and 16, Gila and Salt River Meridian, Pima County, Arizona. Copper, molybdenum, silver, and some gold would be produced.

The Forest Service plans a 90-day public comment period, which begins with the Environmental Protection Agency’s publication of a Notice of Availability in the Federal Register. A number of public meetings are planned. Several options for submitting comments are available.

Requirements for commenting, including appeal procedures, may be found at 36 Code of Federal Regulations Part 215. Comments received regarding this DEIS are considered part of the administrative record for the NEPA review. Within this context, a commenter’s personally identifiable information, such as name and contact information, may be released to a third-party upon request under the Freedom of Information Act. Comments submitted anonymously, without a name and contact information, will be accepted and considered; however, anonymous comments will not provide the commenter with standing to appeal a subsequent decision under 36 Code of Federal Regulations Part 215.6(a)(3).

Comments on the DEIS should be as specific as possible. It is also helpful if comments refer to pages and/or chapters of the DEIS. Comments may address either the adequacy of specific analyses in the DEIS or the merits of the alternatives formulated and discussed in the document or both (refer to CEQ regulations at 40 CFR 1503.3). Concerns about predictive methodologies would be best addressed by alternative methodology and an explanation of why this methodology is preferable. General comments and subjective expressions of advocacy or opposition to the project or alternative are not as useful unless they are substantiated by a link to a relevant issue.

Written and oral comments on the DEIS may be submitted during public meetings planned to be held by the Forest Service as noted below. For questions or special meeting needs or to request a sign language interpreter, please contact the Coronado National Forest at (520) 388–8300-voice or (520) 388–8403–TTY, dial 711 from a TTY relay for service, or e-mail mailroom_r3_coronado@fs.fed.us prior to the meeting.

BILLING CODE 3410–11–P

DEPARTMENT OF COMMERCE
Bureau of the Census

[Docket Number 11007614–1611–01]

Annual Wholesale Trade Survey

AGENCY: Bureau of the Census, Department of Commerce.

ACTION: Notice of Determination.

SUMMARY: The U.S. Department of Commerce’s Bureau of the Census (Census Bureau) publishes this notice to announce that the Director of the Census Bureau has determined the need to conduct the 2011 Annual Wholesale Trade Survey (AWTS). The AWTS covers employer firms with establishments located in the United States and classified in the Wholesale Trade sector as defined by the 2007 North American Industry Classification System (NAICS). Through this survey, the Census Bureau will collect data covering annual sales, e-commerce sales, purchases, total operating expenses, year-end inventories held both inside and outside the United States, commissions, total operating revenue, and gross selling value, for three components of wholesale activity: wholesale distributors; manufacturers’ sales branches and offices; and agents, brokers, and electronic markets. These data are collected to provide a sound statistical basis for the formation of policy by various government agencies. Results will be available for use for a variety of public and business needs, such as economic and market analysis, company performance, and forecasting future demand.

ADDRESSES: The Census Bureau will provide report forms to businesses included in the survey. Additional copies are available upon written request to the Director, U.S. Census Bureau, Washington, DC 20233–0101.

FOR FURTHER INFORMATION CONTACT: John Miller, Service Sector Statistics Division, at (301) 763–2758 or by e-mail at john.p.miller@census.gov.

SUPPLEMENTARY INFORMATION: Sections 182, 224, and 225 of Title 13 of the United States Code authorize the Census Bureau to take surveys that are necessary to produce current data on the subjects covered by the major censuses. As part of this authorization, the Census Bureau conducts the AWTS to provide
The data collected in this survey will be similar to that collected in the past and be available for use for a variety of public and business needs, such as economic and market analysis, company performance, and forecasting future demand.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 U.S.C. 3501–3521, OMB approved the AWTS under OMB control number 0607–0195.

Based upon the foregoing, I have directed that the annual survey be conducted for the purpose of collecting these data.

Dated: October 12, 2011.

Robert M. Groves,
Director, Bureau of the Census.
