Animal and Plant Health Inspection Service

[Notice of Request for Extension of Approval of an Information Collection; Importation of Christmas Cactus and Easter Cactus in Growing Media From the Netherlands and Denmark]

Notice of Request for Extension of Approval of an Information Collection; Importation of Christmas Cactus and Easter Cactus in Growing Media From the Netherlands and Denmark

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service’s intention to request an extension of approval of an information collection associated with regulations for the importation of Christmas cactus and Easter cactus in growing media from the Netherlands and Denmark.

DATES: We will consider all comments that we receive on or before December 19, 2011.

ADDRESSES: You may submit comments by either of the following methods:

- Postal Mail/Commercial Delivery: Send your comment to Docket No. APHIS–2011–0097, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road, Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at http://www.regulations.gov/#!docketDetail;D=APHIS-2011-0097 or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690–2817 before coming.

FOR FURTHER INFORMATION CONTACT: For information on regulations for the importation of Christmas cactus and Easter cactus in growing media from the Netherlands and Denmark, contact Dr. Arnold Tschanz, Senior Plant Pathologist/Risk Manager, Plants for Planting Policy, Regulations, Permits, and Manuals, PHP, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737–1236; (301) 734–0627. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS’ Information Collection Coordinator, at (301) 851–2908.

SUPPLEMENTARY INFORMATION:

Title: Christmas Cactus and Easter Cactus in Growing Media From the Netherlands and Denmark.

OMB Number: 0579–0266.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701 et seq.) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. The regulations contained in “Subpart—Plants for Planting” (7 CFR 319.37 through 319.37–14) prohibit or restrict, among other things, the importation of living plants, plant parts, and seeds for propagation.

Under these regulations, Christmas cactus and Easter cactus in approved growing media may be imported into the United States from the Netherlands and Denmark under certain conditions, which require the use of a phytosanitary certificate and declaration stating the plants were grown in accordance with specific conditions, an agreement between APHIS and the plant protection service of the country the plants are grown, and an agreement between the foreign plant protection service and the grower.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
(3) Enhance the quality, utility, and clarity of the information to be collected; and
(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.6 hours per response.

Respondents: South Korean national plant quarantine service officials and growers of peppers in South Korea.

Estimated annual number of respondents: 1.

Estimated annual number of responses per respondent: 5.

Estimated annual number of responses: 5.

Estimated total annual burden on respondents: 3 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 14th day of October 2011.

Kevin Shea,
Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410–34–P
technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.5714285 hours per response.

Respondents: Foreign plant protection service officials and growers in the Netherlands and Denmark.

Estimated annual number of respondents: 20.
Estimated annual number of responses per respondent: 10.5.
Estimated annual number of responses: 210.
Estimated total annual burden on respondents: 120 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 14th day of October 2011.

Kevin Shea,
Acting Administrator, Animal and Plant Health Inspection Service.

FOR FURTHER INFORMATION CONTACT: For information on regulations for the interstate movement of fruits and vegetables from Hawaii and U.S. territories, contact Mr. David Lamb, Import Specialist, Regulations, Permits, and Manuals, PPQ, APHIS, 4700 River Road, Unit 156, Riverdale, MD 20737; (301) 734–0627. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS’ Information Collection Coordinator, at (301) 851–2908.

SUPPLEMENTARY INFORMATION:
Title: Hawaiian and Territorial Quarantine Notices.
OMB Number: 0579–0198.
Type of Request: Extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (7 U.S.C. 7701 et seq.) (PPA), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA.

Regulations governing the interstate movement of plants and plant products from Hawaii and U.S. territories, including Guam, Puerto Rico, and the U.S. Virgin Islands, are contained in 7 CFR part 318, “State of Hawaii and Territories Quarantine Notices.”

These regulations are necessary to prevent the interstate spread of plant pests such as the Mediterranean fruit fly, the melon fly, the Oriental fruit fly, green coffee scale, the bean pod borer, and other plant pests to noninfested areas of the United States.

Administering these regulations requires APHIS to collect information from a variety of individuals who are involved in growing, packing, handling, and transporting plants and plant products. This information serves as supporting documentation required for the issuance of forms and documents, including limited permits, Federal certificates, compliance agreements, and applications for transit permits, that authorize the movement of regulated articles and is vital to help ensure that injurious plant pests are not spread interstate from the State of Hawaii and U.S. territories to noninfested areas of the United States.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:
1. Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
2. Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimated burden: The public reporting burden for this collection of information is estimated to average 0.7371428 hours per response.

Respondents: State plant health regulatory officials, irradiation facility personnel, and individuals involved in growing, packing, handling, and transporting plants and plant products.

Estimated annual number of respondents: 110.
Estimated annual number of responses per respondent: 38.181818.
Estimated annual number of responses: 4,200.
Estimated total annual burden on respondents: 3,096 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual
