of this Example 5, the unduplicated built-in gain with respect to the S share is $100.

(2) Redetermined NUBIG or NUBL of the P group. For the reasons set forth in paragraph (i)(C)(2) of this Example 5, the P group’s NUBIG is redetermined to be $90. Immediately before P takes into account the $100 gain on the sale of its share of S stock, the P group’s $10 NUBL is redetermined to be a $90 NUBL, the sum of S’s NUBL of $10 and P’s NUBL of $100.

(D) Effect of redetermination. Of the $105 gain P recognized on the sale of the S share, $90 is recognized built-in gain and therefore, under section 382(h)(2)(A), the group’s $90 is recognized built-in gain and therefore, gain P recognized on the sale of the S share, and P’s NUBL of $100.

(2) Disposition of stock or an intercompany obligation of a member. Built-in gain or loss recognized by a member on the disposition of stock (including stock described in section 1504(a)(4) and § 1.382–2T(f)(18)(ii) and (f)(18)(iii)) of another member is treated as a recognized gain or loss for purposes of section 382(h)(2) (unless disallowed) without regard to the extent to which such gain or loss was included in the determination of a net unrealized built-in gain or loss under paragraph (g) of this section. Built-in gain or loss recognized by a member with respect to an intercompany obligation is treated as recognized gain or loss only to the extent (if any) that the transaction gives rise to aggregate income or loss within the consolidated group.

(k) Effective/Applicability date. Paragraphs (g)(1), (g)(7), (g)(8), (h)(2) and (h)(4) of this section apply to amounts taken into account with respect to a transfer of stock of an included subsidiary on or after the date that final regulations are published in the Federal Register, but only with respect to ownership changes occurring on or after October 24, 2011. For amounts taken into account with respect to a transfer of stock of an included subsidiary not described in the preceding sentence, see §§ 1.1502–91(g) and 1.1502–91(h) as contained in 26 CFR part 1 in effect on April 1, 2011.

AGENCY: Postal Service™.

SUMMARY: In October 2011, the Postal Service filed a notice of mailing services price adjustments with the Postal Regulatory Commission (PRC), effective on January 22, 2012. This proposed rule contains the revisions to Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®) that we would adopt to implement the changes coincident with the price adjustments.

DATES: We must receive comments on or before November 23, 2011.

ADDRESSES: Mail or deliver written comments to the manager, Product Certification, U.S. Postal Service®, 475 L’Enfant Plaza, SW., Room 4446, Washington, DC 20260–5015. The Postal Service’s proposed rule includes: Several mail classification changes, modifications to mailpiece characteristics, and changes in classification terminology.

Proposed Change for Letters

Commercial First-Class Mail Letters

The pricing structure for presorted and automation First-Class Mail® letters is proposed to change so that the minimum postage charge would be for a 2-ounce letter instead of the current 1-ounce minimum postage charge.

We also remove standards for Reply Rides Free, because the program ends on December 31, 2011.

Commercial First-Class Mail and Standard Mail Letters

The Postal Service proposes to modify the process of submitting mailpieces to the Pricing and Classification Service Center (PCSC) for testing and to delete the provision that pieces with attached release cards be sent to Engineering.

Standard Mail Nonmachinable Letters

The USPS proposes to clarify that overflow Standard Mail® nonmachinable letters that mailers place into existing trays at another level would require matching documentation.

Proposed Changes for Flats

Automation Flats

The USPS proposes to clarify 301.3.0 to add that automation flats must meet the standards for all flats in 301.1.0 as well as the standards in 301.3.0.

Periodicals Flats

Currently, Periodicals flats are allowed on mixed area distribution center (MADC) pallets only when the flats are sacked. This proposed rule would allow bundles of Periodicals flats to be placed directly on MADC pallets and would assign a specific price for MADC pallets as well.

We propose to revise a price categorization under nonmachinable flats to insert the correct categorization of nonmachinable flats-nonbarcoded.

Detached Address Labels Used With Flats

The Postal Service proposes to add a new term to identify detached address labels (DALs) with advertising. Inclusion of advertising turns DALs into dual purpose pieces—optional addressing vehicles and marketing vehicles. A DAL with advertising on either side would be a type of DAL named as a detached marketing label (DML). Both DALs and DMLs could be used with saturation flats or with Standard Mail Marketing parcels.

Proposed Changes for Parcels

Machinable Parcels

To align the standards for machinable parcels with current mail processing equipment capability, the Postal Service proposes to change the dimensional criteria for all machinable parcels from the current 34 inches x 17 inches x 17 inches to 27 inches x 17 inches x 17
