A Notice of Intent to Prepare an EIS/EIR for the Tule and ECO Projects in San Diego County, California was published in the **Federal Register** on December 29, 2009 [74 FR 68860]. The BLM held two public scoping meetings in Jacumba and Boulevard, California, on January 27 and 28, 2010, respectively. The formal scoping period ended on February 15, 2010. A Notice of Availability of the Draft EIS/EIR was published in the **Federal Register** on December 23, 2010 [75 FR 80807], and the BLM along with the CPUC held two public meetings on the Draft EIS/EIR on January 26, 2011, in Jacumba, and on February 2, 2011, in Boulevard.

In connection with its processing of Tule's application, the BLM is also segregating the public lands within the Project application area for the Tule Project from appropriation under public land laws, including the Mineral Law of 1872, as amended, but not the Mineral Leasing or the Material Sales Acts, for a period of 2 years from the date of publication of this notice. This is done under the authority contained in 43 CFR 2091.3-1(e) and 43 CFR 2804.25(e), and is subject to valid existing rights. The public lands contained within this temporary segregation total approximately 12,200 acres and are described as follows:

The areas described above aggregate approximately 12,200 acres of public lands in San Diego County.

The BLM has determined that this temporary segregation is necessary to ensure the orderly administration of the public lands by maintaining the status quo while it processes Tule's ROW application for the above described lands. The temporary segregation period will terminate and the lands will automatically reopen to appropriation under the public land laws, including the Mining Law, if one of the following events occurs: (1) The BLM issues a decision granting, granting with modifications, or denying Tule's ROW authorization request; (2) Publication in the **Federal Register** of a notice terminating this segregation; or (3) No further administrative action occurs at the end of this segregation. Any segregation made under this authority is effective only for a period of up to 2 years.

Comments on the Draft EIR/EIS received from the public and internal BLM review were considered and incorporated as appropriate into the Final EIR/EIS. Public comments resulted in the addition of clarifying text, but did not significantly change the analysis.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it will proceed with full reviews pursuant to section 751(c)(5) of the Tariff Act of 1930 (19 U.S.C. 1675(c)(5)) to determine whether revocation of the countervailing duty order on welded carbon steel pipe and tube from Turkey, the antidumping duty orders on welded carbon steel pipe and tube from India, Thailand, and Turkey, the antidumping duty orders on circular welded nonalloy steel pipe from Brazil, Korea, Mexico, and Taiwan, and the antidumping duty order on small diameter carbon steel pipe and tube from Taiwan would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time. A schedule for the reviews will be established and announced at a later date. For further information concerning the conduct of these reviews and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207).
