

RETRIEVABILITY:

Records are retrieved by the fellows' names.

SAFEGUARDS:

Access to the records is limited to authorized personnel only. All physical access to the Department's site where this system of records is maintained, is controlled and monitored by security personnel who check each individual entering the buildings for his or her employee or visitor badge.

The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a "need-to-know" basis, and controls an individual user's ability to access and alter records within the system. All users of this system of records are given a unique user identification. The Department's Information Security Privacy Policy requires the enforcement of a complex password policy. In addition, users are required to change their password at least every 60 to 90 days in accordance with the Department's information technology standards.

RETENTION AND DISPOSAL:

The records associated with predoctoral and postdoctoral fellows' progress will be maintained as long as they are professionally active in education research. Records will be maintained and disposed of in accordance with the Department's Records Disposition Schedules. These records are currently unscheduled. A records retention schedule will be developed and submitted to the National Archives and Records Administration (NARA) for approval. No records will be destroyed until a NARA-approved records retention schedule is in place.

SYSTEM MANAGER(S) AND ADDRESS:

Dr. Meredith Larson is the Program Officer for the IES Research Training Program Surveys, and her address is Institute of Education Sciences, Department of Education, 555 New Jersey Avenue, NW., Suite 618, Washington, DC 20208-5530.

NOTIFICATION PROCEDURE:

If you wish to determine whether a record exists regarding you in the system of records, contact the system manager. Your request must meet the requirements of regulations in 34 CFR 5b.5, including proof of identity.

RECORD ACCESS PROCEDURE:

If you wish to gain access to your record in the system of records, contact

the system manager. Your request must meet the requirements of regulations in 34 CFR 5b.5, including proof of identity.

CONTESTING RECORD PROCEDURE:

If you wish to contest the content of a record regarding you in the system of records, contact the system manager. Your request must meet the requirements of the regulations in 34 CFR 5b.7, including proof of identity.

RECORD SOURCE CATEGORIES:

Information maintained in this system of records is obtained from both the fellows and their training programs. Fellows provide information on their individual characteristics, e-mail addresses, views on the quality of the training program, and information on their dissertation, papers, positions, and follow-on research. The training programs provide information on the programs themselves and the fellows' status within the programs, initial student e-mail addresses at the university (students then provide their preferred e-mail addresses), and information on student dissertations and paper.

EXEMPTIONS CLAIMED FOR THIS SYSTEM:

None.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY**Environmental Management Site-Specific Advisory Board, Savannah River Site**

AGENCY: Department of Energy.

ACTION: Notice of Open Meeting.

SUMMARY: This notice announces a meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Savannah River Site. The Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770) requires that public notice of this meeting be announced in the **Federal Register**.

DATES:

Monday, November 14, 2011, 1 p.m.-5 p.m.

Tuesday, November 15, 2011, 8:30 a.m.-4:30 p.m.

ADDRESSES: USC Aiken Convention Center, 471 University Parkway, Aiken, SC 29801.

FOR FURTHER INFORMATION CONTACT:

Gerri Flemming, Office of External Affairs, Department of Energy, Savannah River Operations Office, P.O. Box A, Aiken, SC 29802; *Phone:* (803) 952-7886.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of the Board is to make recommendations to DOE-EM and site management in the areas of environmental restoration, waste management, and related activities.

Tentative Agenda:

Monday, November 14, 2011

1 p.m. Combined Committee Session

5 p.m. Adjourn

Tuesday, November 15, 2011

8:30 a.m. Approval of Minutes, Chair Update

Agency Updates

Public Comment Session

Administrative Committee Report

Nuclear Materials Committee Report

Strategic & Legacy Management

Committee Report

Public Comment Session

12 p.m. Lunch Break

1 p.m. Waste Management Committee

Report

Facilities Disposition & Site

Remediation Committee Report

Public Comment Session

4:30 p.m. Adjourn

If needed, time will be allotted after public comments for items added to the agenda.

Public Participation: The EM SSAB, Savannah River Site, welcomes the attendance of the public at its advisory committee meetings and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact Gerri Flemming at least seven days in advance of the meeting at the phone number listed above. Written statements may be filed with the Board either before or after the meeting. Individuals who wish to make oral statements pertaining to agenda items should contact Gerri Flemming's office at the address or telephone listed above. Requests must be received five days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments will be provided a maximum of five minutes to present their comments.

Minutes: Minutes will be available by writing or calling Gerri Flemming at the address or phone number listed above. Minutes will also be available at the following Web site: http://www.srs.gov/general/outreach/srs-cab/meeting_summaries_2011.html.

Issued at Washington, DC on October 18, 2011.

LaTanya R. Butler,

Acting Deputy Committee Management Officer.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

[Case No. CAC-032]

Decision and Order Granting a Waiver to LG Electronics, Inc. From the Department of Energy Commercial Package Air Conditioner and Heat Pump Test Procedures

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Decision and Order.

SUMMARY: This notice publishes the U.S. Department of Energy's (DOE) Decision and Order in Case No. CAC-032, which grants LG Electronics, Inc. (LG) a waiver from the existing DOE test procedures applicable to commercial package air-source and water-source central air conditioners and heat pumps. The waiver is specific to the LG Multi V SYNC II and Multi V Water II variable refrigerant flow (VRF) multi-split commercial heat pumps. As a condition of this waiver, LG must use the alternate test procedure set forth in this notice to test and rate its Multi V SYNC II and Multi V Water II VRF multi-split commercial heat pumps.

DATES: This Decision and Order is effective October 24, 2011.

FOR FURTHER INFORMATION CONTACT: Dr. Michael G. Raymond, U.S. Department of Energy, Building Technologies Program, Mailstop EE-2J, 1000 Independence Avenue, SW., Washington, DC 20585-0121. Telephone: (202) 586-9611. E-mail: Michael.Raymond@ee.doe.gov.

Ms. Jennifer Tiedeman, U.S. Department of Energy, Office of the General Counsel, Mail Stop GC-71, 1000 Independence Avenue, SW., Washington, DC 20585-0103, (202) 287-6111; E-mail: Jennifer.Tiedeman@hq.doe.gov.

SUPPLEMENTARY INFORMATION: In accordance with Title 10 of the Code of Federal Regulations (10 CFR) 431.401(f)(4), DOE is providing notice of the issuance of the Decision and Order set forth below. In this Decision and Order, DOE grants LG a waiver from the existing DOE commercial package air

conditioner and heat pump test procedures for its Multi V SYNC II and Multi V Water II VRF multi-split commercial equipment. The waiver requires LG to use the alternate test procedure provided in this notice to test and rate the specified models of its Multi V SYNC II and Multi V Water II VRF multi-split commercial equipment line (as identified below).

Today's decision prohibits LG from making any representations concerning the energy efficiency of this equipment unless the equipment has been tested consistent with the provisions and restrictions in the alternate test procedure set forth in the Decision and Order below, and the representations fairly disclose the test results. (42 U.S.C. 6314(d)) Distributors, retailers, and private labelers are held to the same standard when making representations regarding the energy efficiency of this equipment. *Id.*

Issued in Washington, DC, on October 18, 2011.

Kathleen B. Hogan,

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

Decision and Order

In the Matter of: LG Electronics, Inc. (LG) (Case No. CAC-032).

Background

Title III, part C of the Energy Policy and Conservation Act of 1975 (EPCA), Public Law 94-163 (42 U.S.C. 6311-6317, as codified, added by Public Law 95-619, Title IV, 441(a)) established the Energy Conservation Program for Certain Industrial Equipment, a program covering commercial air conditioning and heating equipment, which includes the Multi V SYNC II and Multi V Water II VRF multi-split heat pumps that are the focus of this notice.¹ Part C specifically includes definitions (42 U.S.C. 6311), test procedures (42 U.S.C. 6314), labeling provisions (42 U.S.C. 6315), energy conservation standards (42 U.S.C. 6313), and the authority to require information and reports from manufacturers. 42 U.S.C. 6316. With respect to test procedures, Part C authorizes the Secretary of Energy (the Secretary) to prescribe test procedures that are reasonably designed to produce results that measure energy efficiency, energy use, and estimated annual operating costs, and that are not unduly burdensome to conduct. (42 U.S.C. 6314(a)(2))

For commercial package air-conditioning and heating equipment,

EPCA provides that "the test procedures shall be those generally accepted industry testing procedures or rating procedures developed or recognized by the Air-Conditioning and Refrigeration Institute [ARI] or by the American Society of Heating, Refrigerating and Air-Conditioning Engineers [ASHRAE], as referenced in ASHRAE/IES Standard 90.1 and in effect on June 30, 1992." (42 U.S.C. 6314(a)(4)(A)) Under 42 U.S.C. 6314(a)(4)(B), the statute further directs the Secretary to amend the test procedure for covered commercial equipment if the industry test procedure is amended, unless the Secretary determines, by rule and based on clear and convincing evidence, that such a modified test procedure does not meet the statutory criteria set forth in 42 U.S.C. 6314(a)(2) and (3).

On December 8, 2006, DOE published a final rule adopting test procedures for commercial package air-conditioning and heating equipment, effective January 8, 2007. 71 FR 71340. Table 1 to Title 10 of the Code of Federal Regulations (10 CFR) 431.96 directs manufacturers of commercial package air conditioning and heating equipment to use the appropriate procedure when measuring energy efficiency of this equipment. For small commercial packaged water-source heat pumps with capacities less than 135,000 Btu/h, ISO Standard 13256-1 (1998) is the applicable test procedure. For commercial package air-source equipment with capacities between 65,000 and 760,000 Btu/h, ARI Standard 340/360-2004 is the applicable test procedure.

DOE's regulations for covered products and equipment permit a person to seek a waiver from the test procedure requirements for covered commercial equipment if at least one of the following conditions is met: (1) The petitioner's basic model contains one or more design characteristics that prevent testing according to the prescribed test procedures; or (2) the prescribed test procedures may evaluate the basic model in a manner so unrepresentative of its true energy consumption as to provide materially inaccurate comparative data. 10 CFR 431.401(a)(1). Petitioners must include in their petition any alternate test procedures known to the petitioner to evaluate the basic model in a manner representative of its energy consumption. 10 CFR 431.401(b)(1)(iii). The Assistant Secretary for Energy Efficiency and Renewable Energy (Assistant Secretary) may grant a waiver subject to conditions, including adherence to alternate test procedures. 10 CFR 431.401(f)(4). Waivers remain in effect

¹ For editorial reasons, upon codification in the U.S. Code, part C was re-designated part A-1.
