SUPPLEMENTARY INFORMATION: Under the National Environmental Policy Act (NEPA), we advise the public that:

1. We have gathered the information necessary to determine impacts and formulate alternatives for the draft Environmental Assessment (DEA) related to the potential issuance of an incidental take permit (ITP) to Lower Colorado River Authority Transmission

Services Corporation (LCRA; applicant); and

2. LCRA has developed a draft habitat conservation plan (DHCP) as part of the application for an ITP, which describes the measures LCRA has agreed to undertake to minimize and mitigate the effects of incidental take of federally listed species to the maximum extent practicable, pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act).

LCRA has applied for an ITP (TE-46542A-0) under section 10(a)(1)(B) of the Act. The requested ITP, which would be in effect for a period of 30 years if granted, would authorize incidental take of two federally listed species (covered species), golden-cheeked warbler (*Dendroica chrysoparia*) and black-capped vireo (*Vireo atricapilla*). As described in the DHCP, the proposed incidental take would occur in Gillespie, Kendall, Kerr, Kimble, Mason, Menard, Schleicher, Sutton, and Tom Green Counties, Texas (Permit Area), and would result from activities associated with construction, maintenance, operation, and repair (both routine and emergency) of two Competitive Renewable Energy Zone (CREZ) transmission lines and their associated access roads (Covered Activities), which are required to be constructed by the Public Utility Commission of Texas (PUC).

The DEA considers the direct, indirect, and cumulative effects of the proposed action of permit issuance, including the measures that will be implemented to minimize and mitigate such impacts to the maximum extent practicable.
