SUMMARY: The Lower Colorado River Authority Transmission Services Corporation (applicant) has applied to the U.S. Fish and Wildlife Service (Service) for an incidental take permit under the Endangered Species Act of 1973, as amended. The applicant has completed a draft Habitat Conservation Plan (DHCP) as part of the application package. We are making the permit application package, including the application, DHCP, and DEA, available for public review and comment.

Also, supplemental information provided to the public by the Fish and Wildlife Service, including the draft Habitat Conservation Plan (DHCP), an incsar incidental take permit (ITP) to Lower Colorado River Authority Transmission Services Corporation (LCRA; applicant); and

2. LCRA has developed a draft habitat conservation plan (DHCP) as part of the application for an ITP, which describes the measures LCRA has agreed to undertake to minimize and mitigate the effects of incidental take of federally listed species to the maximum extent practicable, pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act).

LCRA has applied for an ITP (TE–46542A–0) under section 10(a)(1)(B) of the Act. The requested ITP, which would be in effect for a period of 30 years if granted, would authorize incidental take of two federally listed species (covered species), golden-cheeked warbler (Dendroica chrysoparia) and black-capped vireo (Vireo atricapilla). As described in the DHCP, the proposed incidental take would occur in Gillespie, Kendall, Kerr, Kimble, Mason, Menard, Schleicher, Sutton, and Tom Green Counties, Texas (Permit Area), and would result from activities associated with construction, maintenance, operation, and repair (both routine and emergency) of two Competitive Renewable Energy Zone (CREZ) transmission lines and their associated access roads (Covered Activities), which are required to be constructed by the Public Utility Commission of Texas (PUC).

The DEA considers the direct, indirect, and cumulative effects of the proposed action of permit issuance, including the measures that will be implemented to minimize and mitigate such impacts to the maximum extent practicable.

We initially prepared a notice of intent (NOI) to prepare an Environmental Impact Statement and
