*Type of Review:* Revision.

*Title of Collection:* National

Longitudinal Transition Study 2012.

*OMB Control Number:* 1850-0882.

*Agency Form Number(s):* N/A.

*Frequency of Responses:* Once.

*Affected Public:* Individuals or Households; State, Local and Tribal Government.

*Total Estimated Number of Annual Responses:* 52,100.

*Total Estimated Annual Burden Hours:* 30,800.

*Abstract:* To gauge progress in addressing the needs of youth with disabilities, the U.S. Department of Education is sponsoring a five-year longitudinal study focused on the educational and transitional experiences of youth between the ages of 13 and 21 in December 2011. The study focuses on three sets of research questions: What are the characteristics of youth with disabilities? What services and accommodations do they receive and what are their courses of study? What are their transitional experiences as they leave high school and their educational, social, and economic outcomes?

The study will compare this group with three other groups: (1) Youth who have no identified disability, (2) youth who do not have an IEP but who have a condition that qualifies them for accommodation under Section 504 of the Vocational Rehabilitation Act of 1973, and (3) similar cohorts of youth with an IEP who were studied in the past.

Districts and youth will be randomly selected to ensure that they are nationally representative. The study

sample will include approximately 500 school districts and 15,000 students. Phase I data collection will occur in spring 2012 and spring 2014, when sample members will be ages 13-21 and 15-23, respectively. The study will collect data from parents, youth, principals, teachers, and student school records.

n. *Comments, Protests, or Motions To Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Responsive Documents:* Any filing must (1) Bear in all capital letters the title "Comments," "Protest," or "Motion To Intervene" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All comments, motions to intervene, or protests should relate to project works which are the subject of the license surrender. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. If an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP12-9-000]

#### High Point Gas Transmission, LLC; Notice of Application

Take notice that on October 13, 2011, High Point Gas Transmission, LLC (High Point), 6800 West Loop South, Suite 120, Houston, Texas 77401, filed an application in Docket No. CP12-9-000 pursuant to section 7(c) of the Natural Gas Act and parts 157 and 284 of the Commission's Regulations, for authorization to acquire, own and operate certain onshore facilities located in Louisiana and certain offshore facilities located offshore Louisiana in the Gulf of Mexico. In a related application filed on October 7, 2011 in Docket No. CP12-4-000, Southern Natural Gas Company, L.L.C. (Southern) seeks authorization to abandon the facilities subject to High Point's application. Specifically, High Point seeks: (1) A certificate of public convenience and necessity to acquire, own and operate the facilities Southern seeks to abandon; (2) blanket construction and open access transportation certificates pursuant to subpart F of part 157 and subpart G of part 284, respectively, of the Commission's regulations; (3) approval of its *pro forma* tariff; and (4) waiver of the segmentation requirement, all as more fully set forth in the application which are on file with the Commission and open for public inspection.

Any questions regarding this application should be directed to Matthew Rowland, High Point Gas Transmission, LLC, 6800 West Loop South, Suite 120, Houston, Texas 77401, or call at (713) 660-7171.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS)

or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all Federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed
