DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Highly Migratory Species Vessel Logbooks and Cost-Earnings Data Reports.

OMB Control Number: 0648-0371.
Form Number(s): 88-191.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 10,216.

Average Hours per Response: Trip reports, 12 minutes; trip reports without fishing, 2 minutes; cost-earnings and annual summary reports, 30 minutes.

Burden Hours: 36,189.

Needs and Uses: This request is for extension of a current information collection.

Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), the National Oceanic and Atmospheric Administration's National Marine Fisheries Service (NMFS) is responsible for management of the Nation's marine fisheries. In addition, NMFS must comply with the United States' obligations under the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971 *et seq.*), which implements the International Commission for the Conservation of Atlantic Tunas (ICCAT) recommendations. NMFS collects information via vessel logbooks to monitor the U.S. catch of Atlantic swordfish, sharks, billfish, and tunas in relation to the quotas, thereby ensuring that the United States complies with its domestic and international obligations. HMS logbooks are verified using observer data that is collected under OMB Control No. 0648-0593 (Observer Programs' Information That Can Be Gathered Only Through Questions). In addition to HMS fisheries, the HMS logbook is also used to report catches of dolphin and wahoo by commercial and charter/headboat fisheries. The HMS logbooks collect data on incidental species, including sea turtles, which is necessary to evaluate the fisheries in terms of bycatch and encounters with protected species. For both directed and incidentally caught species, the information supplied through vessel logbooks also provides the catch and effort data on a per set or per trip level of resolution. These data are necessary to assess the status of highly migratory species, dolphin, and wahoo in each fishery. International stock assessments for tunas, swordfish, billfish, and some species of sharks are conducted and presented to the International Commission for the Conservation of Atlantic Tunas (ICCAT) periodically and provide, in part, the basis for ICCAT management recommendations which become binding on member nations. Domestic stock assessments for most species of sharks and for dolphin and wahoo are used as the basis of managing

these species. Supplementary information on fishing costs and earnings has been collected via this vessel logbook program. This economic information enables NMFS to assess the economic impacts of regulatory programs on small businesses and fishing communities, consistent with the National Environmental Policy Act (NEPA), Executive Order 12866, the Regulatory Flexibility Act, and other domestic laws.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer:

Foreign-Trade Zones Board

[Docket 65-2011]

Proposed Foreign-Trade Zone—Ada and Canyon Counties, ID, Under Alternative Site Framework, Application Filed

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Caldwell Economic Development Council, Inc. to establish a general-purpose foreign-trade zone at sites in Ada and Canyon Counties, Idaho, adjacent to the Boise U.S. Customs and Border Protection (CBP) port of entry, under the alternative site framework (ASF) adopted by the Board (74 FR 1170-1173, 1/12/09 (correction 74 FR 3987, 1/22/09); 75 FR 71069-71070, 11/22/10). The ASF is an option for grantees for the establishment or reorganization of general-purpose zones and can permit significantly greater flexibility in the designation of new

“usage-driven” FTZ sites for operators/users located within a grantee’s “service area” in the context of the Board’s standard 2,000-acre activation limit for a general-purpose zone project. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on October 19, 2011. The applicant is authorized to make the proposal under Idaho Statute 67-4703A.

The proposed zone would be the second general-purpose zone approved to serve the Boise CBP port of entry. FTZ 192 in Meridian, Idaho was established on February 17, 1993 (Board Order 629, 58 FR 11834, 03/01/1993) but has since lapsed.

The applicant’s proposed service area under the ASF would be Ada and Canyon Counties, Idaho. If approved, the applicant would be able to serve sites throughout the service area based on companies’ needs for FTZ designation. The proposed service area is both within and adjacent to the Boise CBP port of entry.

The proposed zone would initially include two “magnet” sites in Canyon County: *Proposed Site 1* (524.04 acres)—Caldwell Airport/Industrial Park, 4814 East Linden Street, Caldwell; and, *Proposed Site 2* (241.04 acres)—within the 350-acre Sky Ranch Business Center, 4190 Highway 20/26, Caldwell. The parcels within the sites are both publicly and privately owned, as described in the application. The ASF allows for the possible exemption of one magnet site from the “sunset” time limits that generally apply to sites under the ASF, and the applicant proposes that Site 1 be so exempted.

The application indicates a need for zone services in Ada and Canyon Counties, Idaho. Several firms have indicated an interest in using zone procedures for warehousing/distribution activities for a variety of products. Specific manufacturing approvals are not being sought at this time. Such requests would be made to the Board on a case-by-case basis.

In accordance with the Board’s regulations, Christopher Kemp of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board’s Executive Secretary at the address below. The closing period for their receipt is December 27, 2011. Rebuttal comments in response to

material submitted during the foregoing period may be submitted during the subsequent 15-day period to January 9, 2012.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue, NW., Washington, DC 20230-0002, and in the “Reading Room” section of the Board’s website, which is accessible via <http://www.trade.gov/ftz>. For further information, contact Christopher Kemp at Christopher.Kemp@trade.gov.

Dated: October 19, 2011.

Andrew McGilvray,
Executive Secretary.

The ITA-334P is the principal program form used for recording operational data on the basis of which program entitlements are distributed among the producers. This form also serves as the producer’s application to the Departments for these entitlements and is completed biannually by watch and jewelry assemblers and manufacturers. The form consists of four versions: mid-year and annual application for watch producers; and mid-year and annual application for jewelry producers.

II. Method of Collection

The form is sent to each watch and jewelry producer biannually. It is also available at <http://ita-web.ita.doc.gov/doc/eFormsPub.nsf> and may be completed online and printed, and submitted via mail.
