

use in water depths of 1,500 feet or more; (2) intended for use in and is actually used for a specific deepwater project; (3) rated for a specified minimum yield strength of not less than 60,000 psi; and (4) not identified or certified through the use of a monogram, stencil, or otherwise marked with an API specification (e.g., "API 5L").

With regard to the excluded products listed above, the Department will not instruct CBP to require end-use certification until such time as petitioner or other interested parties provide to the Department a reasonable basis to believe or suspect that the products are being utilized in a covered application. If such information is provided, we will require end-use certification only for the product(s) (or specification(s)) for which evidence is provided that such products are being used in a covered application as described above. For example, if, based on evidence provided by petitioner, the Department finds a reasonable basis to believe or suspect that seamless pipe produced to the A-335 specification is being used in an A-106 application, we will require end-use certifications for imports of that specification. Normally we will require only the importer of record to certify to the end use of the imported merchandise. If it later proves necessary for adequate implementation, we may also require producers who export such products to the United States to provide such certification on invoices accompanying shipments to the United States.

Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the merchandise subject to this scope is dispositive.

Final Determination of No Shipments

As we stated in the preliminary results, our practice concerning no-shipment respondents had been to rescind the administrative review if the respondent certifies that it had no shipments and we have confirmed through our examination of CBP data that there were no shipments of subject merchandise during the POR. See 19 CFR 351.213(d)(3); see also *Oil Country Tubular Goods from Japan: Preliminary Results of Antidumping Duty Administrative Review and Partial Rescission of Review*, 70 FR 53161, 53161-53163 (September 7, 2005), unchanged in *Oil Country Tubular Goods from Japan: Final Results and Partial Rescission of Antidumping Duty Administrative Review*, 71 FR 95 (January 3, 2006). In such circumstances, we normally instructed CBP to liquidate any entries from the

no-shipment company at the deposit rate in effect on the date of entry.

In our May 6, 2003, "automatic assessment" clarification, we explained that, where respondents in an administrative review demonstrate that they had no knowledge of sales through resellers to the United States, we would instruct CBP to liquidate such entries at the all-others rate applicable to the proceeding. See *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003) ("Assessment Policy Notice").

As we stated in the preliminary results, because "as entered" liquidation instructions do not alleviate the concerns which the May 6, 2003, clarification was intended to address, we find it appropriate in this case to instruct CBP to liquidate any existing entries of merchandise produced by Nippon, JFE, SMI, or NKK, and exported by other parties at the all-others rate. In addition, we continue to find it is more consistent with the May 6, 2003, clarification not to rescind the review in these circumstances but, rather, to complete the review with respect to Nippon, JFE, SMI, and NKK, and issue appropriate instructions to CBP based on the final results of the review. See the "Assessment Rates" section of this notice below.

Assessment Rates

The Department intends to issue assessment instructions directly to CBP 15 days after the date of publication of these final results of this review.

As noted above, the Department clarified its "automatic assessment" regulation on May 6, 2003. See *Assessment Policy Notice*. This clarification will apply to POR entries by all respondent companies because they certified that they made no POR shipments of subject merchandise for which they had knowledge of U.S. destination. We will instruct CBP to liquidate these entries at the all-others rate established in the less-than-fair-value investigation (68.88 percent) if there is no rate for the intermediary involved in the transaction. See *Assessment Policy Notice* for a full discussion of this clarification.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption

that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding APOs

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely notification of destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

These final results of administrative review and notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: October 20, 2011.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration.

Solid Urea From the Russian Federation: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On June 17, 2011, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on solid urea from the Russian Federation. The solid urea subject to this review was produced and exported by MCC EuroChem (EuroChem). The period of review (POR) is July 1, 2009, through June 30, 2010.

Based on our analysis of comments received, we have not made any changes in the margin calculation for EuroChem. The final weighted-average dumping margin for EuroChem is listed below in the section entitled "Final Results of the Administrative Review."

DATES: *Effective Date:* October 27, 2011.

FOR FURTHER INFORMATION CONTACT: Dustin Ross or Minoo Hatten, AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of

Commerce, 14th Street and Constitution Avenue NW., Washington DC 20230; telephone: (202) 482-0747 and (202) 482-1690, respectively.

SUPPLEMENTARY INFORMATION:

Background

On June 17, 2011, the Department published the *Preliminary Results* of the administrative review of the antidumping duty order on solid urea from the Russian Federation. See *Solid Urea From the Russian Federation: Preliminary Results of Antidumping Duty Administrative Review*, 76 FR 35405 (June 17, 2011) (*Preliminary Results*).

On August 9, 2011, we received a case brief from the petitioners¹ and a letter in lieu of a case brief from EuroChem. On August 18, 2011, we received rebuttal briefs from the petitioners and from EuroChem. There were no requests for a hearing.

Scope of the Order

The merchandise subject to the antidumping duty order is solid urea, a high-nitrogen content fertilizer which is produced by reacting ammonia with carbon dioxide. The product is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) item number 3102.10.00.00. Previously such merchandise was classified under item number 480.3000 of the Tariff Schedules of the United States. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Analysis of Comments Received

All issues raised in the petitioners' case brief and EuroChem's letter in lieu of a case brief are addressed in the Issues and Decision Memorandum which is hereby adopted by this notice. A list of the issues raised is attached to this notice as Appendix I. The Issues and Decision Memorandum is a public document and is on file electronically via Import Administration's Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). Access to IA ACCESS is available in the Central Records Unit (CRU), room 7046 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the Internet at <http://www.trade.gov/ia/>. The signed Issues and Decision Memorandum and the electronic versions of the Issues and

Decision Memorandum are identical in content.

Final Results of the Administrative Review

We determine that the weighted-average margin on solid urea from the Russian Federation produced and exported by EuroChem for the period July 1, 2009, through June 30, 2010, is 1.17 percent.

Assessment Rates

The Department shall determine and U.S. Customs and Border Protection (CBP) shall assess antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we have calculated an importer-specific assessment rate for EuroChem reflecting these final results of review.

The Department clarified its "automatic assessment" regulation on May 6, 2003. This clarification will apply to entries of subject merchandise during the POR produced by EuroChem for which EuroChem did not know its merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries of merchandise produced by EuroChem at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction. For a full discussion of this clarification, see *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003).

The Department intends to issue instructions to CBP 15 days after the publication of these final results of review.

Cash-Deposit Requirements

The following cash-deposit requirements will be effective upon publication for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this review, as provided by section 751(a)(2)(C) of the Tariff Act of 1930, as amended (the Act): (1) The cash-deposit rate for EuroChem will be 1.17 percent; (2) for previously reviewed or investigated companies not listed above, the cash-deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (LTFV) investigation but the manufacturer is, the cash-deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; (4) the cash-deposit rate for all other manufacturers or

exporters will continue to be 64.93 percent, the all-others rate established in the LTFV investigation. See *Urea From the Union of Soviet Socialist Republics; Final Determination of Sales at Less Than Fair Value*, 52 FR 19557, 19561 (May 26, 1987). Following the break-up of the Soviet Union, the antidumping duty order on solid urea from the Soviet Union was transferred to the individual members of the Commonwealth of Independent States. See *Solid Urea From the Union of Soviet Socialist Republics; Transfer of the Antidumping Order on Solid Urea From the Union of Soviet Socialist Republics to the Commonwealth of Independent States and the Baltic States and Opportunity to Comment*, 57 FR 28828 (June 29, 1992). The rate established in the LTFV investigation for the Soviet Union was applied to each new independent state, including the Russian Federation. These cash-deposit requirements shall remain in effect until further notice.

Notifications

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely notification of destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: October 17, 2011.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

International Trade Administration

Executive-Led Trade Mission to Afghanistan

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice.

Mission Description

The United States Department of Commerce's International Trade Administration is organizing a business development trade mission to Kabul, Afghanistan in February 2012. This mission will be led by a Senior Commerce Department official. Targeted sectors include: Construction (including engineering, architecture, transportation and logistics, and infrastructure); mining (including equipment, technology, and services); agribusiness; and information and communications technology. The mission's goal is to help U.S. companies explore long-term business opportunities in Afghanistan and enhance U.S.—Afghan commercial relations by providing U.S. participants with first-hand market information, access to government decision makers as well as one-on-one meetings with business contacts, including potential agents, distributors, and partners, to position themselves to enter or expand their presence in the targeted sectors.

Commercial Setting

The Government of the Islamic Republic of Afghanistan (GIROA) is taking steps to develop its market economy and increase both domestic and foreign private investment. GIROA continues to develop legal and administrative regulatory frameworks that will lead to a market more conducive to trade, investment and private sector development. For example, Afghanistan adopted an investment law that allows investments to be 100% foreign-owned. Additionally, on October 28, 2010, Afghanistan and Pakistan signed the Afghanistan Pakistan Transit Trade Agreement (APTTA), allowing Afghan container trucks to drive through Pakistan to the Indian border, and also to port cities such as Karachi.

After of 30 years of war require reconstruction and development efforts are required to grow and stabilize

Afghanistan's economy. The GIROA is committed to promoting economic development, increasing production and earnings, promoting technology transfer, improving national prosperity and advancing Afghans' standard of living in partnership with international donor agencies. GIROA recognizes that U.S. services, equipment and technology would enhance development of Afghanistan's industrial sector and lead to increased productivity and greater technical skills for Afghan citizens. International donors continue to support Afghanistan's development; however, long-term sustainable growth will take place through private sector development.

To support Afghanistan's private sector and promote reconstruction efforts, GIROA has identified domestic priority sectors needing investment and development in both equipment and services. These priority sectors are: Construction and infrastructure, logistics and transportation, mining, agribusiness, and information and communications technology providers.

The economy is beginning to move from one based on state owned enterprises and the informal economy to a more formal market economy. A notable sign of this transition for the U.S. business community is the establishment of an American Chamber of Commerce in Kabul in 2010.

Kabul is the capital of Afghanistan, situated in Kabul Province. With a total metropolitan population of 2.6 million, it is also the largest city in Afghanistan. It is the commercial center for the country, with national Afghan businesses, associations, and GIROA ministries maintaining a presence in Kabul. Afghanistan's GDP per capita is approximately \$500, and has experienced double digit growth in recent years.

The Commerce Department has supported commercial and private sector development in Afghanistan since 2002, and posted a Senior Commercial Officer in Kabul in June 2010.

Mission Goals

The goal of the mission is to provide U.S. participants with first-hand market information, access to government decision makers and one-on-one meetings with business contacts, including potential agents, distributors, and partners, so that they can position themselves to enter the Afghan market or expand their business presence in Afghanistan. Thus, the mission seeks to:

- Improve U.S. companies' understanding of commercial opportunities in Afghanistan.

- Facilitate business meetings between U.S. and Afghan businesses to promote the development of U.S. commercial opportunities in Afghanistan.

- Introduce U.S. industry to the Afghan business community and government leaders.

- Provide GIROA policymakers with U.S. industry feedback on the direction of its commercial reforms.

Mission Scenario

The business development mission will take place in Kabul, Afghanistan. Participants will meet with Afghan leaders in the public and private sector, learn about the market by participating in Embassy briefings, and explore additional opportunities at networking receptions. Activities will include one-on-one meetings with pre-screened business prospects. (Note that the regular workweek in Afghanistan is Sunday through Thursday.)

Proposed Timetable

(The State Department will follow RSO procedure in reference to security within and around the mission event.)

Day One (weekend) Travel Day—Depart U.S. on evening flight

Day Two Travel Day—Participants arrive in transit city (tbd) and overnight in pre-arranged departure from transit city

Day Three Travel Day, Arrive in Kabul, Afghanistan (afternoon) Evening Event

Day Four Security Briefing, Market Briefing, One-on-One Business Appointments, Reception

Day Five Market Briefing, Industry Sector Briefing, Meetings with Government and Industry Officials, One-on-One Business Appointments, Reception

Day Six One-on-One Business Appointments (optional), Travel Day—Depart for the U.S. (evening)

Day Seven Travel Day—Arrive in U.S. (morning)

Participation Requirements

This business development mission is designed for a minimum of 10 qualified companies and can accommodate a maximum of 20 participants from the companies accepted. All parties interested in participating in this business development mission to Kabul, Afghanistan, must submit a completed application package for consideration by the U.S. Department of Commerce. All applicants will be evaluated on their ability to meet certain conditions and to best satisfy the selection criteria as outlined below. U.S. companies already doing business in the target sectors as
