SUPPLEMENTARY INFORMATION: *Title:* Regulations Governing the Inspection and Grading of Manufactured or Processed Dairy Products—Recordkeeping (Subpart B).

OMB Number: 0581–0110.

Expiration Date of Approval: March 31, 2012

Type of Request: Extension of a currently approved information collection.

Abstract: The Agricultural Marketing Act (AMA) of 1946 (7 U.S.C. 1621 *et seq.*) directs the Department to develop programs which will provide for and facilitate the marketing of agricultural products. One of these programs is the USDA voluntary inspection and grading program for dairy products (7 CFR Part 58) where these dairy products are graded according to U.S. grade standards by a USDA grader. The dairy products under the dairy program may be identified with the USDA grade mark. Dairy processors, buyers, retailers, institutional users, and consumers have requested that such a program be developed to assure the uniform quality of dairy products purchased. In order for any service program to perform satisfactorily, there are regulations for the provider and user. For these reasons, the dairy inspection and grading program regulations were developed and issued under the authority of the AMA. These regulations are essential to administering the program and meeting the needs of the users.

The information collection requirements in this request are needed to ensure that dairy products are produced under sanitary conditions and buyers are purchasing a quality product. In order for the Regulations governing the Inspection and Grading of Manufactured or Processed Dairy Products to serve the government, industry, and the consumer, laboratory test results must be recorded.

Respondents are not required to submit information to the agency. The records are to be evaluated by a USDA inspector at the time of an inspection.

These records include quality tests of each producer, plant records of required tests and analysis, and starter and cheese make records. As an offsetting benefit, the records required by USDA are also records that are routinely used by the inspected facility for their own supervisory and quality control purposes.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 2.85 hours per response.

Respondents: Dairy products manufacturing facilities.

Estimated Number of Respondents: 487.

Estimated Number of Responses: 1388.

Estimated Number of Responses per Respondent: 2.85.

Estimated Total Annual Burden on Respondents: 3956.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to Evan J. Stachowicz, 1400 Independence Avenue, SW., Room 2746—South, Washington, DC 20250–0230. All comments received will be available for public inspection during regular business hours at the same address.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Dated: October 21, 2011.

David R. Shipman,

Acting Administrator, Agricultural Marketing Service.

BILLING CODE 3410–02–P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and

Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Protocol for Access to Tissue Specimen Samples from the National Marine Mammal Tissue Bank.

OMB Control Number: 0648–0468.

Form Number(s): NA.

Type of Request: Regular submission (revision and extension of a current information collection).

Number of Respondents: 50.

Average Hours per Response:

Applications for tissue samples and research reports, 2 hours; submissions of tissue samples, 30 minutes.

Burden Hours: 155.

Needs and Uses: In 1989, the National Marine Mammal Tissue Bank (NMMTB) was established by the National Marine Fisheries Service (NMFS) Office of Protected Resources in collaboration with the National Institute of Standards and Technology (NIST), Minerals Management Service (MMS), and the US Geological Survey/Biological Resources Division (USGS/BRD). The NMMTB provides protocols, techniques, and physical facilities for the long-term storage of tissues from marine mammals. Scientists can request tissues from this repository for retrospective analyses to determine environmental trends of contaminants and other substances of interest. The NMMTB collects, processes, and stores tissues from specific indicator species (e.g., Atlantic bottlenose dolphins, Atlantic white sided dolphins, pilot whales, harbor porpoises), animals from mass strandings, animals that have been obtained incidental to commercial fisheries, animals taken for subsistence purposes, biopsies, and animals from unusual mortality events through two projects, the Marine Mammal Health and Stranding Response Program (MMHSRP) and the Alaska Marine Mammal Tissue Archival Project (AMMTAP).

The purposes of this collection of information are: (1) To enable NOAA to allow the scientific community the opportunity to request tissue specimen samples from the NMMTB and, (2) to enable the Marine Mammal Health and Stranding Response Program (MMHSRP) of NOAA to assemble information on all specimens submitted to the Marine Environmental Specimen Bank (Marine ESB), which includes the NMMTB.

A program change to this collection consists of a new web-based form for application for tissue samples;

previously, there was only a protocol for application.

Affected Public: Not-for-profit institutions.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer:

OIRA_Submission@omb.eop.gov.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at *dHynek@doc.gov*).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to

OIRA_Submission@omb.eop.gov.

Dated: October 21, 2011.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Institute of Standards and Technology (NIST).

Title: Manufacturing Extension Partnership (MEP) Client Impact Survey.

OMB Control Number: 0693-0021.

Form Number(s): None.

Type of Request: Regular submission.

Burden Hours: 2,500.

Number of Respondents: 10,000.

Average Hours per Response: 15 Minutes.

Needs and Uses: The objective of the NIST Manufacturing Extension Partnership Program (MEP) is to enhance productivity, technological performance, and strengthen the global competitiveness of small- and medium-sized U.S.-based manufacturing firms. Through this client impact survey, the MEP will collect data necessary for program accountability; analysis and research into the effectiveness of the MEP program; reports to stakeholders; Government Performance and Results Act requirements; continuous

improvement efforts; knowledge sharing across the MEP system; and identification of best practices. Collection of this data is needed in order to comply with the MEP charter, as mandated by Congress.

The survey will be revised to reflect NIST's "Next Generation Strategy." This new strategy focuses on growth and innovation for manufacturers. The information will inform management and stakeholders of the strategy's effectiveness.

Affected Public: Business or other for-profit organizations.

Frequency: Annually.

Respondent's Obligation: Required to obtain benefits.

OMB Desk Officer: Jasmeet Seehra, (202) 395-3123.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at *dHynek@doc.gov*).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to, Jasmeet Seehra, OMB Desk Officer, FAX Number (202) 395-5167, or *Jasmeet_K_Seehra@omb.eop.gov*.

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 67-2011]

Foreign-Trade Zone 29—Louisville, KY, Application for Subzone; North American Stainless (Stainless Steel); Ghent, KY

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Louisville & Jefferson County Riverport Authority, grantee of FTZ 29, requesting special-purpose subzone status for the stainless steel mill of North American Stainless (NAS), located in Ghent, Kentucky. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on October 21, 2011.

The NAS facility (1,800 employees, 1,327 acres, 1.4 million metric ton melting capacity) is located at 6870 U.S. Highway 42 East, Ghent, Kentucky. The facility is used for the manufacturing of flat and long stainless steel products. Components and materials sourced from abroad (representing up to 30% of the value of the finished product) include: fluorospar, molybdenum oxide, ferromanganese, ferrosilicon, ferrosilicon manganese, charge chrome, ferrochrome, ferrochrome silicon, ferronickel, ferromolybdenum, ferriobium, ferroboration, stainless steel scrap, semifinished iron or non-alloy steel products, semifinished stainless steel products, copper spent anodes, nickel, unwrought nickel alloys, aluminum, zinc, zinc alloys, manganese metal, titanium waste and scrap, unwrought molybdenum and unwrought titanium (duty rate ranges from duty-free to 15%). NAS has indicated that they will accept a restriction requiring all foreign status ferrosilicon, molybdenum and titanium (HTSUS 7202.21, 8102.94, 8108.20 and 8108.90) to be admitted to the proposed subzone in privileged foreign (PF) status (19 CFR 146.41).

FTZ procedures could exempt NAS from customs duty payments on the foreign components used in export production. The company anticipates that some 20-30 percent of the plant's shipments will be exported. On its domestic sales, NAS would be able to choose the duty rates during customs entry procedures that apply to finished and semifinished stainless steel products (duty-free) for the foreign inputs noted above. FTZ designation would further allow NAS to realize logistical benefits through the use of weekly customs entry procedures. Customs duties also could possibly be deferred or reduced on foreign status production equipment. The request indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, Elizabeth Whiteman of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is December 27, 2011. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the
