SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a and as part the Department of Homeland Security’s (DHS) biennial review of system of record notices, DHS/United States Secret Service (USSS) proposes to update and reissue a current DHS system of records titled, DHS/USSS–003 Non-Criminal Investigation Information System of Records. As a result of biennial review of this system, records have been updated within the categories of individuals covered in this system and categories of records in this system in order to further define, narrow, and eliminate duplicative categories. Routine Use H was revised to further define the purposes of disclosure, and retention and disposal procedures were updated to reflect current retention practices. The notification procedures were updated to clarify the reason for exemption and the method for access. This updated system will be included in DHS’s inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses, and disseminates individuals’ records. The Privacy Act applies to information that is maintained in a ‘‘system of records.’’ A ‘‘system of records’’ is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass United States citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals where systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DHS by complying with DHS Privacy Act regulations, 6 CFR part 5.

The Privacy Act requires that each agency publish in the Federal Register a description denoting the type and character of each system of records in order to make agency recordkeeping practices transparent, to notify individuals about the use of their records, and to assist the individual to more easily find files within the agency. Below is a description on the DHS/USSS–003 Non-Criminal Investigation Information System of Records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this revised system of records to the Office of Management and Budget and to the Congress.
