Availability of NPRMs

An electronic copy of this document may be downloaded from and comments submitted through http://www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA’s Web page at http://www.faa.gov/airports/airtraffic/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Office (see the ADDRESSES section for address and phone number) between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. An informal docket may also be examined during normal business hours at the office of the Eastern Service Center, Federal Aviation Administration, room 350, 1701 Columbia Avenue, College Park, Georgia 30337.

Persons interested in being placed on a mailing list for future NPRMs should contact the FAA’s Office of Rulemaking, (202) 267-9677, to request a copy of Advisory Circular No. 11–2A, Notice of Proposed Rulemaking distribution System, which describes the application procedure.

The Proposal

The FAA is considering an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to establish Class E airspace at Inverness, FL, providing the controlled airspace required to support the new RNAV (GPS) standard instrument approach procedure for Inverness Airport. Controlled airspace extending upward from 700 feet above the surface would be established for the safety and management of IFR operations at the airport.

Class E airspace designations are published in Paragraph 6005 of FAA order 7400.9V, dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order. The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034: February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This proposed rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This proposed regulation is within the scope of that authority as it would establish Class E airspace at Inverness Airport, Inverness, FL.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

§71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9V, Airspace Designations and Reporting Points, dated August 9, 2011, effective September 15, 2011, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ASO FL E5 Inverness, FL [New]

Inverness Airport, FL

(Lat. 28°48′22″ N., long. 82°19′09″ W.)

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Inverness Airport.
The Bureau of Economic Analysis (BEA), U.S. Department of Commerce, would conduct the survey under the International Investment and Trade in Services Survey Act (22 U.S.C. 3101–3108), hereinafter, “the Act.” The proposed BE–150 survey would be mandatory for both U.S. credit card and PIN-based debit network companies. If this rule is implemented, BEA would begin sending the survey to potential respondents in March of 2012; responses would be due by May 15, 2012.

The proposed BE–150 survey data will be used by BEA to estimate the travel component of the U.S. International Transactions Accounts (ITAs). In constructing the estimates, these data will be used in conjunction with data BEA collected separately from U.S. and foreign travelers on the Quarterly Survey of Cross-Border Credit, Debit, and Charge Card Transactions Related to International Travel Expenditures about the methods these travelers used to pay for their international travel, such as credit, debit, and charge card purchases, cash withdrawals, currency brought from home, and travelers’ checks.

BEA maintains a continuing dialogue with respondents and with data users, including its own internal users, to ensure that, as far as possible, the required data serve their intended purposes and are available from the existing records, that instructions are clear, and that unreasonable burdens are not imposed. In reaching decisions on what questions to include in the survey, BEA considered the Government’s need for the data, the burden imposed on respondents, the quality of the likely responses (for example, whether the data are available on respondents’ books), and BEA’s experience in previous annual and quarterly surveys.

Survey Background

The Bureau of Economic Analysis (BEA), U.S. Department of Commerce, would conduct the survey under the International Investment and Trade in Services Survey Act (22 U.S.C. 3101–3108), hereinafter, “the Act.” Section 4(a) of the Act (22 U.S.C. 3103(a)) provides that the President shall, to the extent he deems necessary and feasible, conduct a regular data collection program to secure current information related to international investment and trade in services and publish for the use of the general public and United States Government agencies periodic, regular, and comprehensive statistical

international travel statistics in accordance with international economic accounting guidelines.

The BE–150 survey proposed in this rule would be conducted by BEA on a quarterly basis, beginning with transactions for the first quarter of 2012, under the authority provided in the International Investment and Trade in Services Survey Act (Pub. L. 94–472. 90 Stat. 2059, 22 U.S.C. 3101–3108).
information collected pursuant to this subsection.

In section 3 of Executive Order 11961, as amended by Executive Orders 12318 and 12518, the President delegated the responsibilities under the Act for performing functions concerning international trade in services to the Secretary of Commerce, who has redelegated them to BEA.

The survey would provide a basis for compiling the travel account of the United States international transactions accounts. In constructing the estimates, these data would be used in conjunction with data BEA collected separately from U.S. and foreign travelers on the Survey of International Travel Expenditures on the methods these travelers used to pay for international travel expenditures. With the two data sources, BEA would be able to estimate total expenditures by foreign travelers in the United States (U.S. exports) and total expenditures by U.S. travelers abroad (U.S. imports) by country and region.

Executive Order 12866

This proposed rule has been determined to be not significant for purposes of E.O. 12866.

Executive Order 13132

This proposed rule does not contain policies with Federalism implications as that term is defined under E.O. 13132.

Paperwork Reduction Act

This proposed rule contains a collection-of-information requirement subject to review and approval by the Office of Management and Budget (OMB) under the Paperwork Reduction Act. The requirement will be submitted to OMB as a request for a new collection of information.

Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection displays a currently valid Office of Management and Budget Control Number.

The BE–150 quarterly survey, as proposed, is expected to result in the filing of reports from six respondents on a quarterly basis, or 24 reports annually. The respondent burden for this collection of information would vary from one respondent to another, but is estimated to average 16 hours per response (64 hours annually), including time for reviewing the instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Thus, the total respondent burden for the BE–150 survey is estimated at 384 hours.

Comments are requested concerning:
(a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
(b) the accuracy of the burden estimate;
(c) ways to enhance the quality, utility, and clarity of the information collected; and
(d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

Written comments regarding the burden-hour estimates or other aspects of the collection-of-information requirements contained in the proposed rule should be sent to both BEA and OMB following the instructions given in the ADDRESSES section above.

Regulatory Flexibility Act

The Chief Counsel for Regulation, Department of Commerce, has certified to the Chief Counsel for Advocacy, Small Business Administration, under provisions of the Regulatory Flexibility Act (5 U.S.C. 605(b)), that this proposed rulemaking, if adopted, will not have a significant economic impact on a substantial number of small entities. A description of the changes proposed by this rule are described in the preamble and are not repeated here.

BEA estimates that this rule would not have an impact on any small entities as the BE–150 survey would be mandatory for only those U.S. credit card companies that operate networks used to clear and settle credit card transactions between issuing banks and acquiring banks, and PIN-based debit network companies. BEA estimates that there are only six companies that would be subject to this rule. Of the six companies, none is considered to be a small entity under the Small Business Administration’s Table of Small Business Size Standards. All six companies are corporations that exceed the maximum annual revenue threshold to be considered a small entity. Because no small businesses are subject to reporting, the Chief Counsel for Regulation certifies that this proposed rule would not have a significant economic impact on a substantial number of small entities.

List of Subjects in 15 CFR Part 801

International transactions, Economic statistics, Foreign trade, Penalties, Reporting and recordkeeping requirements, Travel expenses, Cross-border transactions, Credit card, and Debit card.

J. Steven Landefeld.
Director, Bureau of Economic Analysis.

For the reasons set forth in the preamble, BEA proposes to amend 15 CFR Part 801, as follows:

PART 801—SURVEY OF INTERNATIONAL TRADE IN SERVICES BETWEEN U.S. AND FOREIGN PERSONS

1. The authority citation for 15 CFR Part 801 continues to read as follows:

2. Amend § 801.9 by adding paragraph (c)(7):

§ 801.9 Reports required.

(c) Quarterly surveys. * * *

(7) BE–150, Quarterly Survey of Payment Card and Bank Card Transactions Related to International Travel:

(i) A BE–150, Quarterly Survey of Payment Card and Bank Card Transactions Related to International Travel will be conducted covering the first quarter of the 2012 calendar year and every quarter thereafter.

(A) Who must report. A BE–150 report is required from each U.S. company that operates networks for clearing and settling credit card transactions made by U.S. cardholders in foreign countries and by foreign cardholders in the United States and from PIN-based debit network companies. Each reporting company must complete all applicable parts of the BE–150 form before transmitting it to BEA. Issuing banks, acquiring banks, and individual cardholders are not required to report.

(B) Covered Transactions. The BE–150 survey collects aggregate information on the use of credit, debit, and charge cards by U.S. cardholders when traveling abroad and foreign cardholders when traveling in the United States. Data are collected by the type of transaction, by type of card, by spending category, and by country.

(ii) [Reserved]
