

## History

On July 21, 2011, the FAA published in the **Federal Register** a notice of proposed rulemaking to amend Class E airspace for Evansville, IN, creating controlled airspace at Evansville Regional Airport (76 FR 43615) Docket No. FAA–2011–0429. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9V dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR Part 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

## The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by creating additional Class E airspace extending upward from 700 feet above the surface for new standard instrument approach procedures at Evansville Regional Airport, Evansville, IN. This action is necessary for the safety and management of IFR operations at the airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the

safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace for Evansville Regional Airport, Evansville, IN.

#### **Addition of Certain Persons on the Entity List: Addition of Persons Acting Contrary to the National Security or Foreign Policy Interests of the United States**

**AGENCY:** Bureau of Industry and Security, Commerce.

**ACTION:** Final rule.

**SUMMARY:** This rule amends the Export Administration Regulations (EAR) by adding fifteen persons to the Entity List (Supplement No. 4 to Part 744) on the basis of section 744.11 of the EAR. The persons who are added to the Entity List have been determined by the U.S. Government to be acting contrary to the national security or foreign policy interests of the United States. These fifteen persons will be listed under the following four destinations on the Entity List: China, Hong Kong, Iran and Singapore.

The Entity List provides notice to the public that certain exports, reexports, and transfers (in-country) to parties identified on the Entity List require a license from the Bureau of Industry and Security (BIS) and that availability of license exceptions in such transactions is limited.

**DATES:** *Effective Date:* This rule is effective October 31, 2011. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis.

#### **SUPPLEMENTARY INFORMATION:**

#### **Background**

The Entity List provides notice to the public that certain exports, reexports, and transfers (in-country) to parties identified on the Entity List require a license from the Bureau of Industry and Security (BIS), and that availability of license exceptions in such transactions is limited. Persons are placed on the Entity List on the basis of criteria set forth in certain sections of part 744 (Control Policy: End-User and End-Use Based) of the EAR.

The End-User Review Committee (ERC), composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes all decisions regarding additions to, removals from or changes to the Entity List. The ERC makes all decisions to add an entry to the Entity List by majority vote, and all decisions to remove or modify an entry by unanimous vote.

#### *ERG Entity List Decisions*

#### *Additions to the Entity List*

The ERC made a determination to add fifteen persons under twenty-five entries to the Entity List on the basis of section 744.11 (License Requirements that Apply to Entities Acting Contrary to the National Security or Foreign Policy Interests of the United States) of the EAR. The twenty-five entries added to the Entity List consist of five new entries in China, seven new entries in Hong Kong, three new entries in Iran, and ten new entries in Singapore. Ten of the entries are for persons with addresses in more than one of the countries (Iran, China, Hong Kong, and Singapore) at issue.

The ERC reviewed the criteria for revising the Entity List (section 744.11(b) of the EAR) in making the determination to add these persons to the Entity List. These criteria establish how to add to the Entity List those entities that, based on specific and articulable facts there is reasonable cause to believe, have been involved, are involved, or pose a significant risk
