DATES: Comments that we receive on this notice will be accepted until close of business December 30, 2011.

ADDRESSES: FCIC prefers that comments be submitted electronically through the Federal eRulemaking Portal. You may submit comments, identified by Docket ID No. FCIC–11–0010, by any of the following methods:

- Mail: Director, Product Administration and Standards Division, Risk Management Agency, United States Department of Agriculture, P.O. Box 419205, Kansas City, MO 64133–6205.

All comments received, including those received by mail, will be posted without change to http://www.regulations.gov, including any personal information provided, and can be accessed by the public. All comments must include the agency name and docket number or Regulatory Information Number (RIN) for this rule. For detailed instructions on submitting comments and additional information, see http://www.regulations.gov. If you are submitting comments electronically through the Federal eRulemaking Portal and want to attach a document, we ask that it be in a text-based format. If you want to attach a document that is a scanned Adobe PDF file, it must be scanned as text and not as an image, thus allowing FCIC to search and copy certain portions of your submissions. For questions regarding attaching a document that is a scanned Adobe PDF file, please contact the RMA Web Content Team at (816) 823–4694 or by e-mail at rmaweb.content@rma.usda.gov.

Privacy Act: Anyone is able to search the electronic form of all comments received for any docket by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review the complete User Notice and Privacy Notice for Regulations.gov at http://www.regulations.gov/#/privacyNotice.

FOR FURTHER INFORMATION CONTACT: Director, Product Administration and Standards Division, Risk Management Agency, United States Department of Agriculture, Beacon Facility, Stop 0812, Room 421, P.O. Box 419205, Kansas City, MO 64141–6205, telephone (816) 926–7730.

SUPPLEMENTARY INFORMATION:

Title: Multiple Peril Crop Insurance.
OMB Number: 0563–0053.
Expiration Date of Approval: March 31, 2012.

Type of Request: Extension of a currently approved information collection.

Abstract: The information collection requirements for this renewal package are necessary for administering the crop insurance program. Producers are required to report specific data when they apply for crop insurance and report acreage, yields, and notices of loss. Insurance companies accept applications; issue policies; establish and provide insurance coverage; compute liability, premium, subsidies, and losses; indemnify producers; and report specific data to FCIC as required in Appendix II/III.13 Handbook. Commodities for which Federal crop insurance is available are included in this information collection package. This submission’s per-response time was re-evaluated by data element and line item to show a truer, more accurate account of the time spent to collect the data FCIC requires.

FCIC is requesting the Office of Management and Budget (OMB) to extend the approval of this information collection for an additional 3 years. The purpose of this notice is to solicit comments from the public concerning this information collection. These comments will help us:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;
2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond (such as through the use of appropriate automated, electronic, mechanical, or other forms of information technology, e.g., permitting electronic submission of responses).

Estimate of Burden: The public reporting burden for this collection of information is estimated to average 0.76 per hour per response. Respondents/Affected Entities: Producers and insurance companies reinsured by FCIC.

Estimated Annual Number of Respondents: 556,408.
Estimated Annual Number of Responses Per Respondent: 18.8.
Estimated Annual Number of Responses: 10,470,186.
Estimated Total Annual Burden on Respondents: 7,960,519.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Signed in Washington, DC, on October 25, 2011.

William J. Murphy, Manager, Federal Crop Insurance Corporation.

DEPARTMENT OF AGRICULTURE

Forest Service

Bridger-Teton National Forest; Big Piney Ranger District; Wyoming: Environmental Impact Statement for the Sherman Cattle & Horse Allotment Grazing Authorization and Management Project

AGENCY: Forest Service, USDA.
ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Department of Agriculture, Forest Service, will prepare an environmental impact statement to analyze the effects of domestic livestock grazing in the Sherman Cattle & Horse Allotment. This action was originally listed as a proposal (to be analyzed under an environmental assessment) on the Bridger-Teton National Forest Schedule of Proposed Actions on January 1, 2010. However, during development of the environmental assessment, it was determined that analysis and disclosure under an environmental impact statement would be more appropriate. The analysis contained in the environmental impact statement will be used by the Responsible Official to decide whether livestock grazing can be authorized within the allotment, and if so, under what conditions. The Sherman Cattle and Horse Allotment is located in western Wyoming, about 35 miles northwest of Big Piney, Wyoming, and is situated on the east side of the northern end of the Wyoming Range. The entire 17,370 acre allotment lies within Sublette County and within the boundaries of the Big Piney Ranger District.

DATES: Comments concerning the scope of the analysis must be received by November 30, 2011. All comments that were received during the previous analysis period will be considered in the current analysis. The draft environmental impact statement is expected in April of 2012 and the final environmental impact statement is expected in August of 2012.

ADDRESSES: Send written comments to District Ranger, Big Piney Ranger
Resource Development with Moderate Accommodation of Other Resources). Management emphasis includes livestock production. Approximately nine percent of the project area is within the DFC 10 (Simultaneous Development of Resources, Opportunities for Human Experiences and Support for Big-game and a Wide Variety of Wildlife Species). Approximately five percent of the project area is within the DFC 12 (Backcountry Big-game Hunting, Dispersed Recreation, and Wildlife Security Areas).
- Federal regulation (36 CFR 222.2(c)) states that National Forest System lands would be allocated for livestock grazing and allotment management plans would be prepared consistent with forest plans. Continued domestic livestock grazing must be consistent with the goals, objectives and guidelines of the Forest Plan. The allotment management plan needs to be revised to update and/or refine desired rangeland conditions and develop management strategies to meet them. This analysis complies with the schedule specified by the Rescission Act of 1995 (Pub. L. 104–19) to complete NEPA analyses on allotments where such analysis is needed to authorize permitted livestock grazing activity.

Proposed Action
The Proposed Action is to authorize continued livestock grazing on the Sherman Cattle & Horse Allotment consistent with goals, objectives, standards and guidelines, management prescriptions, and monitoring requirements specified in the Forest Plan, and in compliance with the Rescission Act of 1995. The Proposed Action is designed to (1) contribute towards Forest Plan objective 1.1(h) which states “provide forage for about 260,000 AUMs of livestock grazing annually”, and (2) achieve Goal 4.7 which states “[g]razing use of the National Forest sustains or improves on vegetation composition and ground cover.

Preliminary Issues
The following preliminary issues were identified by the public and the Forest Service in the previous environmental analysis process.

Issue 1—Effects of livestock grazing on riparian and aquatic function.
Issue 2—Effects of livestock grazing on Threatened, Endangered, Experimental, and Candidate Species, Forest Service Sensitive Species, Forest Plan Management Indicator Species and migratory birds.
Issue 3—Effects of livestock grazing on soil quality.

Scoping Process
This notice of intent continues the scoping process, which guides the development of the environmental impact statement. A scoping letter was mailed to those listed on the Big Piney Ranger District general mailing list. The mailing list included private landowners, term grazing permit holders, special interest groups, interested members of the public, and
local, State, and Federal agencies. The letter described the purpose and need for action and the proposed action. Additionally, the letter solicited public participation in the process, specifically the submission of comments, concerns, and recommendations regarding management of the allotment. Term grazing permit holders, or their representatives, were contacted shortly after the project was initiated to solicit their input concerning management of the allotment.

All submitted comments, including those previously submitted, will be used to prepare the new draft environmental impact statement. News releases will be prepared to give the public general notice concerning the progress of this project analysis.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency’s preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer’s concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however.

Dated: October 25, 2011.

Eric J. Winthers,
Acting District Ranger.

DEPARTMENT OF COMMERCE
Foreign-Trade Zones Board
[Docket 68–2011]
Foreign-Trade Zone 177—Evansville, IN; Application for Manufacturing Authority; Hoosier Stamping & Mfg. Corp. (Wheel Assemblies and Accessories), Chandler, IN

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Ports of Indiana, grantee of FTZ 177, requesting manufacturing authority on behalf of Hoosier Stamping & Mfg. Corp. d/b/a Hoosier Wheel (Hoosier Stamping), located in Chandler, Indiana. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on October 25, 2011.

The Hoosier Stamping facility (25 employees, 9.44 acres, 9,500,000 unit capacity) is located within Site 8 of FTZ 177. The facility is used for the manufacturing, warehousing, packaging, processing, inspecting, repairing and distributing of wheel assemblies and accessories. Components and materials sourced from abroad (representing up to 60% of the value of the finished product) include: pneumatic tires, tubes, rolled rim rings, semi-pneumatic tires, herring-bone tires, welding wires and bolts (duty rate ranges from duty-free to 3.7%). The application also requests authority to include a broad range of inputs and finished wheel assemblies that Hoosier Stamping may produce under FTZ procedures in the future. New major activity involving these inputs/products would require review by the FTZ Board.

FTZ procedures could exempt Hoosier Stamping from customs duty payments on the foreign components used in export production. The company anticipates that approximately one percent of the plant’s shipments will be exported. On its domestic sales, Hoosier Stamping would be able to choose the duty rates during customs entry procedures that apply to finished wheel assemblies (duty-free) for the foreign inputs noted above. FTZ designation would further allow Hoosier Stamping to realize logistical benefits through the use of weekly customs entry procedures. Customs duties also could be deferred or reduced on foreign status production equipment. The request indicates that the savings from FTZ procedures would help improve the plant’s international competitiveness.

In accordance with the Board’s regulations, Elizabeth Whiteman of the FTZ staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the Board. Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board’s Executive Secretary at the address below. The closing period for their receipt is December 30, 2011. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to January 17, 2012.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230–0002, and in the “Reading Room” section of the Board’s Web site, which is accessible via http://www.trade.gov/ftz.

For further information, contact Elizabeth Whiteman at Elizabeth.Whiteman@trade.gov or (202) 482–0475.
