II. Request for Comment

The Department is proposing to revise the child labor regulations issued pursuant to the Fair Labor Standards Act, which set forth the criteria for the permissible employment of minors under 18 years of age in agricultural and nonagricultural occupations. The proposal would implement specific recommendations made by the National Institute for Occupational Safety and Health, increase parity between the agricultural and nonagricultural child labor provisions, and also address other areas that can be improved, which were identified by the Department's own enforcement actions. The proposed agricultural revisions would impact only hired farm workers and in no way compromise the statutory child labor parental exemption involving children working on farms owned or operated by their parents.

In addition, the Department proposes to revise the exemptions which permit the employment of 14- and 15-year-olds to perform certain agricultural tasks that would otherwise be prohibited to that age group after they have successfully completed certain specified training.

The Department is also proposing to revise subpart G of the child labor regulations to incorporate all the regulatory changes to the agricultural child labor provisions made since that subpart was last revised. Finally, the Department is proposing to revise its civil money penalty regulations to incorporate into the regulations the processes the Department follows when determining both whether to assess a child labor civil money penalty and the amount of that penalty.

In the **Federal Register** of September 2, 2011 (76 FR 54836), the Department of Labor published a proposed notice of rulemaking requesting public comments on proposed revisions to the child labor regulations issued pursuant to the Fair Labor Standards Act, which set forth the criteria for the permissible employment of minors under 18 years of age in agricultural and nonagricultural occupations. Interested parties were requested to submit comments on or before November 1, 2011.

The Department has received requests to extend the period for filing public comments from members of Congress and various agricultural business organizations, including, but not limited to: American Sheep Industry Association; National Cattlemen's Beef Association; National Pork Producers Council; National Turkey Federation; California Farm Bureau Federation; National Association of State Departments of Agriculture; National Association of Agricultural Employers; National FFA Organization; and the American Farm Bureau Federation. Because of the interest that has been expressed in this matter, the Department has decided to extend the period for submitting public comment for 30 additional days.

Dated: October 26, 2011.

Nancy J. Leppink,

Deputy Administrator, Wage and Hour Division.

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Parts 4001, 4022, 4041, and 4044

RIN 1212-AB17

Cash Balance Plans; Benefit Determinations and Plan Valuations for Statutory Hybrid Plans; Pension Protection Act of 2006

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Proposed rule.

SUMMARY: This proposed rule would implement provisions of the Pension Protection Act of 2006 (PPA 2006) that change the rules for determining benefits upon the termination of a statutory hybrid plan, such as a cash balance plan. PPA 2006 provides that, when such a plan terminates, a variable rate used under the plan to determine accrued benefits will be equal to the average of the rates of interest used

under the plan during the five-year period ending on the termination date. Further, the amount of the benefit payable in the form of an annuity payable at normal retirement age will be determined using the interest rate and mortality table specified under the plan for that purpose as of the termination date (or an average interest rate if the plan rate is a variable rate). For a plan terminated and trustee by PBGC, the proposed rule would amend PBGC's regulations to conform the rules for determining the allocation of assets and the amount of benefits payable under Title IV of ERISA to the PPA 2006 changes in the benefit determination rules for statutory hybrid plans. The proposed rule would also implement a PPA 2006 change for determining the present value of the accrued benefit under a statutory hybrid plan. Finally, the proposed rule would provide guidance on benefits payable under a statutory hybrid plan that terminates in a standard termination.
